A1 - Specified by permit	Assessed (A)	

Result types are explained in more detail in the 'Important Information' section below.

Total number of non-compliances recorded	Total non-compliance score
0	0

How we use the non-compliance score to calculate your annual fee is explained in the 'Important Information' section below.

2. What action is required?

No action required.

3. What will happen next?

Any non-compliance we have identified and recorded on this form is an offence. It can result in criminal prosecution and/or suspension or revocation of your permit.

You are non-compliant with your permit.

At this time, we are issuing you with a warning for the non-compliance recorded above. Warnings may influence future enforcement response for continued or further non-compliance.

This statement does not stop us from taking additional enforcement action if further relevant information comes to light or offences continue.

4. Details of our assessment

This review undertaken to confirm status of the actions were assigned to JMEL (JM

Envirofuels) (Barry) Limited by Natural Resources Wales South Central Waste Regulation Team in accordance with their permit requirements to bring the site back into compliance with their permit.

On 14 January 2021 Environmental Permitting (England and Wales) Regulations 2016 Regulation 36 notice issued to JMEL Limited. Following actions were summarised in SCHEDULE 1 of the notice:

Condition 2.1.1 Remove wood waste that have been stored onsite for more than 3 months and provide evidence in the form of Duty of Care Notes to prove that these have been removed to a permitted facility by 15/03/2021 – **We can confirm that this action was completed.**

Condition 3.4.1 Reduce waste stack heights in line with current FPMP guidance so that stockpiles are not greater than 4 metres in height. 15/02/2021 – **We can confirm that this action was completed.**

Condition 3.4.1 Reduce waste stack heights to allow minimum of 1m freeboard between the waste and bunker wall height 15/02/2021 – **We can confirm that this action was completed.**

Condition 3.4.1 Reduce waste stack widths to 17.5m or below as specified in FPMP Version 5 15/02/2021 – We can confirm that this action was completed.

Condition 3.4.1 Remove waste stored in the quarantine area 15/02/2021 – **We can confirm that this action was completed.**

Condition 3.4.1 Make available a coupling system on the water storage tank that is compatible with the Fire and Rescue Service equipment – **We can confirm that this action was completed.**

In conclusion, as confirmed above, all actions listed in Schedule 1 of the Regulation 36 notice issued on 14 January 2021 are completed. The site is now back into compliance with their permit for the issues raised in the notice. This CAR is being issued with a warning as an Enforcement response for the non-compliant period with the relevant permit conditions.

Important information

Legal status of this report

Your permit is issued to you under the Environmental Permitting Regulations. You have a responsibility to comply with the conditions of your permit and prevent pollution/harm of the environment. You must also ensure that you comply with any other relevant legislation that may apply to your site's operations.

This report explains the findings of our assessment and any action you are required to take. We categorise non-compliance using our guidance for assessing non-compliance at regulated sites.

When we find potential non-compliance/s we will normally give you advice on how to maintain compliance.

To correct non-compliance, we may:

- require you to take specific actions
- issue a notice
- review the conditions of your permit.

Any advice and guidance we give will be without prejudice to any other enforcement response that we consider may be required.

Assessment results and non-compliance categories (used in section 1):

Assessment result	Description
Assessed (A)	Assessed or assessed in part, no evidence of non-compliance found
Action only (X)	Action only relating to the activity assessment
Ongoing (O)	Ongoing non-compliance, not scored

Non-compliance category	Description	Score
C1 Major	Potential to have a major, serious, persistent and/or extensive impact or effect on the environment, people and/or property	60
C2 Significant	Potential to have a significant impact or effect on the environment, people and/or property	31
C3 Minor	Potential to have a minor or minimal impact or effect on the environment, people and/or property	4
C4 No environmental impact	Non-compliance at a regulated site that cannot foreseeably have any impact on the environment, people and/or property	0.1

How we use assessment scores

The number and severity of non-compliances recorded in a year will affect your annual subsistence fee the following year. A non-compliance factor is added to your site's Operator

Performance Risk Appraisal (OPRA) score when we calculate your fee to reflect the additional resource we use to assess permit compliance.

What are suspended scores?

In line with our guidance, we may suspend scores for up to six months to allow time for remedial action to be taken. Suspended scores will be re-instated if the action is not completed.
