Dear Sir / Madam

Application for Variation to Environmental Permit EPR/AB3591ZQ, Maelor Foods Limited - Maelor Poultry Processing Plant, Pickhill Lane, Cross Lanes, Wrexham, LL13 0UE

Please find enclosed our application for a minor technical variation to our environmental permit for the following changes to our installation:

1. A new DERV / Ad Blue storage and fuelling facility.
2. Changes to the location of the surface water monitoring points (W2 and W3) to readily accessible points within the installation.

Please note that the revised installation plan and site drainage plan showing the new locations (Figures 1 and 2 in Appendix 3) will be submitted within 14 days once our architect has reissued them.

3. Details of the odour control measures being implemented on the waste water treatment plant under our response to improvement condition IC2 and the revised odour management plan under IC3.

Our local NRW Regulatory officer has been advised by an NRW Permitting Officer that these changes can be addressed by a minor technical variation and we have therefore calculated the application fee as the fixed charge of £1,280.

Yours faithfully
