Type of assessment carried out: Check Monitoring/Sampling, Reason: Routine.

On 17/11/2020.

Parts of permit assessed: Monitoring Reports

NRW Lead Officer: Emma Pierce.

Report sent to: Operations Manager, Operations Manager on 21/05/2021.

1. Summary of our findings (full details in section 4)

Part of permitted activity assessed (criteria)	Assessment result	Permit condition
G4 - Monitoring and Records, Maintenance and Reporting - Reporting and notification to Natural Resources Wales	C4 No impact (Suspended)	4.2.3

Result types are explained in more detail in the 'Important Information' section below.

Total number of non-compliances recorded	Total non-compliance score
1	0

How we use the non-compliance score to calculate your annual fee is explained in the 'Important Information' section below.

2. What action is required?

Criteria	Action needed	Complete by
G4	None	10/12/2020

Action criteria codes are listed in the 'Important information' section below.

3. What will happen next?

Any non-compliance we have identified and recorded on this form is an offence. It can result in criminal prosecution and/or suspension or revocation of your permit.

At this time, we do not intend to take any further action.

This statement does not stop us from taking additional enforcement action if further relevant information comes to light or offences continue.

4. Details of our assessment

Monitoring Returns

Q1 Returns were submitted late on the 20th July 2020 along with your Q2 Returns. You stated that this was linked to the issues surrounding the Covid-19 pandemic. This is a breach of permit condition 4.2.3 which states:

within 28 days of the end of the reporting period the operator shall, unless otherwise agreed in writing by NRW, submit reports of the monitoring and assessment carried out in accordance with the conditions of this permit, as follows;

(a) in respect of the parameters and emission points specified in Schedule 4, Table S4.1

NRW are taking a proportionate response to any non-compliances notified to us, that is directly linked to issues caused by the COVID-19 pandemic. Therefore this breach has been recorded as non-compliant C4 (no environmental impact) however the score will be suspended to take account of these extenuating circumstances.

Q2 Returns were submitted on time with no concerns or non-compliances

Q3 Returns were submitted on time with no concerns or non-compliances

Q4 Returns and annual returns were submitted on time with no concerns or non-compliances

If you have any queries about this report, or to discuss completion of any actions, please contact the NRW Officer named above.

Important information

Legal status of this report

Your permit is issued to you under the Environmental Permitting Regulations. You have a responsibility to comply with the conditions of your permit and prevent pollution/harm of the environment. You must also ensure that you comply with any other relevant legislation that may apply to your site's operations.

This report explains the findings of our assessment and any action you are required to take. We categorise non-compliance using our guidance for assessing non-compliance at regulated sites.

When we find potential non-compliance/s we will normally give you advice on how to maintain compliance.

To correct non-compliance, we may:

- require you to take specific actions
- issue a notice
- review the conditions of your permit.

Any advice and guidance we give will be without prejudice to any other enforcement response that we consider may be required.

Assessment results and non-compliance categories (used in section 1):

Assessment result	Description
Assessed (A)	Assessed or assessed in part, no evidence of non-compliance found
Action only (X)	Action only relating to the activity assessment
Ongoing (O)	Ongoing non-compliance, not scored

Non-compliance category	Description	Score
C1 Major	Potential to have a major, serious, persistent and/or extensive impact or effect on the environment, people and/or property	60
C2 Significant	Potential to have a significant impact or effect on the environment, people and/or property	31
C3 Minor	Potential to have a minor or minimal impact or effect on the environment, people and/or property	4
C4 No environmental impact	Non-compliance at a regulated site that cannot foreseeably have any impact on the environment, people and/or property	0.1

How we use assessment scores

The number and severity of non-compliances recorded in a year will affect your annual subsistence fee the following year. A non-compliance factor is added to your site's Operator

Performance Risk Appraisal (OPRA) score when we calculate your fee to reflect the additional resource we use to assess permit compliance.

What are suspended scores?

In line with our guidance, we may suspend scores for up to six months to allow time for remedial action to be taken. Suspended scores will be re-instated if the action is not completed.
