

## Schedule 6 - Notification

These pages outline the information that the operator must provide.

Units of measurement used in information supplied under Part A and B requirements shall be appropriate to the circumstances of the emission. Where appropriate, a comparison should be made of actual emissions and authorised emission limits.

If any information is considered commercially confidential, it should be separated from non-confidential information, supplied on a separate sheet and accompanied by an application for commercial confidentiality under the provisions of the PPC Regulations.

### Part A

|                                |                                              |
|--------------------------------|----------------------------------------------|
| Permit Number                  | EPR/BP3532HX                                 |
| Name of operator               | Kennametal Manufacturing UK Ltd              |
| Location of Installation       | Lake Road, Leeway Industrial Estate, Newport |
| Time and date of the detection | 13/01/21 09:00                               |

#### (a) Notification requirements for any malfunction, breakdown or failure of equipment or techniques, accident, or fugitive emission which has caused, is causing or may cause significant pollution

##### To be notified within 24 hours of detection

|                                                                  |  |
|------------------------------------------------------------------|--|
| Date and time of the event                                       |  |
| Reference or description of the location of the event            |  |
| Description of where any release into the environment took place |  |
| Substances(s) potentially released                               |  |
| Best estimate of the quantity or rate of release of substances   |  |
| Measures taken, or intended to be taken, to stop any emission    |  |
| Description of the failure or accident.                          |  |

#### (b) Notification requirements for the breach of a limit

##### To be notified within 24 hours of detection unless otherwise specified below

|                                                               |                                                                                                                                             |
|---------------------------------------------------------------|---------------------------------------------------------------------------------------------------------------------------------------------|
| Emission point reference/ source                              | A6                                                                                                                                          |
| Parameter(s)                                                  | Particulate                                                                                                                                 |
| Limit                                                         | 25 mg/m <sup>3</sup>                                                                                                                        |
| Measured value and uncertainty                                | 160.4 ± 4.94 mg/m <sup>3</sup>                                                                                                              |
| Date and time of monitoring                                   | 11:58 -13:06 10/12/20                                                                                                                       |
| Measures taken, or intended to be taken, to stop the emission | This is an ongoing issue with a solution being sought. A washable filter which has now been purchased is to be installed within the system. |

| Time periods for notification following detection of a breach of a limit |                     |
|--------------------------------------------------------------------------|---------------------|
| Parameter                                                                | Notification period |
| Particulates                                                             | Without Delay       |
|                                                                          |                     |
|                                                                          |                     |

| (c) Notification requirements for the detection of any significant adverse environmental effect |  |
|-------------------------------------------------------------------------------------------------|--|
| To be notified within 24 hours of detection                                                     |  |
| Description of where the effect on the environment was detected                                 |  |
| Substances(s) detected                                                                          |  |
| Concentrations of substances detected                                                           |  |
| Date of monitoring/sampling                                                                     |  |

### Part B - to be submitted as soon as practicable

|                                                                                                                                                                                                                                                                                                             |                                                                                                                                                             |
|-------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|-------------------------------------------------------------------------------------------------------------------------------------------------------------|
| Any more accurate information on the matters for notification under Part A.                                                                                                                                                                                                                                 | It was reported a few days after testing that the water pump supplying the shower head had failed<br>This may have had a considerable bearing on the Result |
| Measures taken, or intended to be taken, to prevent a recurrence of the incident                                                                                                                                                                                                                            | A washable filter is to be installed downstream of the wet scrubber as a potential solution.                                                                |
| Measures taken, or intended to be taken, to rectify, limit or prevent any pollution of the environment which has been or may be caused by the emission                                                                                                                                                      |                                                                                                                                                             |
| <p>The dates of any unauthorised emissions from the installation in the preceding 24 months.</p> <p>A1 particulates – Q4 2017, Q1 2018, A1 CO – Q2 2018, A1 Ammonia – Q2 2019. A3 particulates – Q3 2017, Q2 2018, Q1 2019. A6 particulates – All quarters. A7 particulates – Q2 2018. A8 CO – Q2 2018.</p> |                                                                                                                                                             |

|           |                                                                                      |
