SAFETY, HEALTH AND ENVIRONMENTAL INFORMATION

In addition to the hazards/risks normally associated with the types of work detailed on this drawing, note the following:

CONSTRUCTION

Potential for striking live underground services or unrecorded services. Working in intertidal zone and potential for work area to become inundated. Risk of collapse of unstable structures such as South Pier. Access to the car park near the Yacht club is restricted as the area is used for boat storage during the winter. Access to Quay Parade is narrow with parked vehicles present adjacent to the harbour wall. The harbour is operational with small leisure craft and fishing boats accessing and egressing during high water. Potential presence of Sabellaria at North Beach. Presence of historic fish traps on South Beach to be demarked during construction.
