Dear NRW

Re: Standard Variation of Maenan Abbey Caravan Park.

Please find enclosed forms A, C2, C6 and F2 in order to vary the discharge point in existing permit CG00702-01.

There is a lot of history surrounding the foul wastewater discharge from the site which is being presently dealt with by Bob Edwards and Sarah Aubrey of NRW. In short - the site was permitted on existing permit CG00702-01 to discharge across a field (not belonging to the Caravan Park) to a watercourse North West of the sewage treatment plant location. For some unknown reason the site has always discharged close to the plant on land owned by Maenan Caravan Park NOT in the permitted location. This has been going on for 60 years. The watercourse is known to hold water all year around except during extended unseasonal dry periods.

There has been a whole new sewage treatment system installed on the site. We are now looking to vary the permit in line with the continuing 60 year discharge point on the site.

If you have any questions about this contents of this application, please contact me as the agent on 01984 623404 ext 26 or by email at [naomi@wci.co.uk](mailto:naomi@wci.co.uk).

My thanks in advance
