Subject: Marine Band 1 application - University Bangor -Teaching

Dear sir/Madam,

I am writing to check that the proposed activities for our Marine Band 1 licence application will not cause any undue navigational risk to sea traffic.

- The proposed work is to take grab/sediment samples for scientific research (Teaching).
- Sites are yet to be determined but the application is in two parts ;
- Part 1 – Teaching (Day trips) between Sept and December onboard the RV Prince Madog, samples will be taken within the area (see attached map 1).
- Part II – Undergraduate and Postgraduate projects, will happen throughout the year within the waters surrounding Anglesey and North Wales (SEE attached MAP 2). This work will mainly be conducted on the smaller vessels Macoma /MYA using a hand operated grab with the occasional grab sample taken onboard the RV Prince Madog.
- The vessel will disengage power and display the relevant shapes/lights under the COLREGS when on station.
- Sampling time will be less than 10minutes per station.
- Average sample size will be 0.002m³ (2ltrs) onboard the RV Prince Madog and 0.0005m³(0.5ltrs)onboard the smaller vessels
- Samples will not be taken from Sensitive, protected or historical areas.

Please let me know if you need any further information.

Best Regards

Ian Pritchard
