4. Details of our assessment

NRW officers Phil Harper and Daniel Grant visited Harris Salvage, Cyttir Lane Bangor, LL57 4DA at 10:10 am on the 1st June 2021. Wayne Robinson accompanied the visit. The visit was conducted as a hazardous waste audit. A report which discusses the findings of the audit has already been sent.

Weather conditions were bright and sunny. At the time of inspection there was no activity on site.

B1 Engineering for prevention and Control of Emissions

The oil interceptor at entrance to the permitted area was inspected. No issues noted.

C1 Staff Competency/ training

During the inspection officers were informed that a Technically Competent Manager had been found to oversee operations at the site.

Action: As described in Section 2.3 of the permit, by the **30th July 2021** please send an email to Philip.harper@cyfoethnaturiolcymru.gov.uk which names the new TCM. Please also include evidence of WAMITAB qualification and documentation demonstrating that the new TCM is being paid to provide cover.

C3 Materials Acceptance

No issues were noted regarding site waste acceptance.

C4 Storage Handling Labelling and Segregation

At the time of the visit depolluted end of life vehicles were stored on racks. All of the stored vehicles were depolluted. All waste was stored within the permitted area.

F1 Odour

No odours on site or outside of the site boundary.

F3Dust/fibres/particulates and litter

Ground conditions were damp at the time of the inspection. No dust on site, no litter outside of the site boundary.

F4 Pests/birds and scavengers

No vermin on site.

F5 Deposits on road

No deposits or mud on the road outside the site.

Kind Regards

Phil Harper

Important information

Legal status of this report

Your permit is issued to you under the Environmental Permitting Regulations. You have a responsibility to comply with the conditions of your permit and prevent pollution/harm of the environment. You must also ensure that you comply with any other relevant legislation that may apply to your site's operations.

This report explains the findings of our assessment and any action you are required to take. We categorise non-compliance using our guidance for assessing non-compliance at regulated sites.

When we find potential non-compliance/s we will normally give you advice on how to maintain compliance.

To correct non-compliance, we may:

- require you to take specific actions
- issue a notice
- review the conditions of your permit.

Any advice and guidance we give will be without prejudice to any other enforcement response that we consider may be required.

Assessment results and non-compliance categories (used in section 1):

Assessment result	Description
Assessed (A)	Assessed or assessed in part, no evidence of non-compliance found
Action only (X)	Action only relating to the activity assessment
Ongoing (O)	Ongoing non-compliance, not scored

Non-compliance category	Description	Score
C1 Major	Potential to have a major, serious, persistent and/or extensive impact or effect on the environment, people and/or property	60
C2 Significant	Potential to have a significant impact or effect on the environment, people and/or property	31
C3 Minor	Potential to have a minor or minimal impact or effect on the environment, people and/or property	4
C4 No environmental impact	Non-compliance at a regulated site that cannot foreseeably have any impact on the environment, people and/or property	0.1

How we use assessment scores

The number and severity of non-compliances recorded in a year will affect your annual subsistence fee the following year. A non-compliance factor is added to your site's Operator

Performance Risk Appraisal (OPRA) score when we calculate your fee to reflect the additional resource we use to assess permit compliance.

What are suspended scores?

In line with our guidance, we may suspend scores for up to six months to allow time for remedial action to be taken. Suspended scores will be re-instated if the action is not completed.
