

Application to vary a marine licence

Variation request details

Marine licence number

ORML1957

Expiry date of current licence

* 15/12/2035

Licence holder name

Pembrokeshire Coastal Forum CiC

Variation type

Complex change

Brief description of licence variation that is required. (Identify licence condition numbers and reference the supporting documents within your current licence which are likely to be affected)

We would like to remove all conditions relating to Requirements for survey of little grebe (*Tachybaptus ruficollis*) at Warrior Way if works are taking place between 1 August to the 28 February. See conditions 3.28 and 3.31 of licence ORML1957. We would like to remove these conditions, because following consultation with NRW Advisory and RSPB it has been determined that due to the minimum consented blade clearance of 2m there is no longer an impact pathway for little grebe at warrior way, thus surveys are not required. Please see text files uploaded which provide a record of this consultation. (apologies these are text files as this portal would not allow outlook items to be uploaded).

We would also like to change an incorrect project parameter in 'Appendix 1.3: East Pickard Bay testing activities characteristic' of ORML1957. The incorrect project parameter is height above surface: $\leq 15m^3$. This should in fact be $\leq 15m$. This is a NRW admin error as a footnote was copied by NRW by accident from the ES Chapter 2: Project Description into the licenced parameter making it $\leq 15m^3$ rather than the correct $\leq 15m$. It was an easy mistake to make, but obviously height is not measured in volume! Please see attached ES chapter 2: project description, Table 2.8 and footnote 3 on that page for evidence. Although this should be an admin change we have been advised by NRW to include as part of this variation to avoid having to edit the licence twice.

Please upload all supporting information for this request (where applicable)
