

Schedule 6 - Notification

These pages outline the information that the operator must provide.

Units of measurement used in information supplied under Part A and B requirements shall be appropriate to the circumstances of the emission. Where appropriate, a comparison should be made of actual emissions and authorised emission limits.

If any information is considered commercially confidential, it should be separated from non-confidential information, supplied on a separate sheet and accompanied by an application for commercial confidentiality under the provisions of the EP Regulations.

Part A

Permit Number	BR9383ID	Notification Reference	EP_EX_271
Name of operator	Knauf Insulation Ltd		
Location of Facility	Chemistry Lane, Queensferry, Deeside, Flintshire, CH5 2DA		
Time and date of the detection	17th May 2021 07:20		

(a) Notification requirements for any malfunction, breakdown or failure of equipment or techniques, accident, or fugitive emission which has caused, is causing or may cause significant pollution	
To be notified within 24 hours of detection	
Date and time of the event	17:00 hrs 14th May 2021 to 09:00 hrs 17th May 2021
Reference or description of the location of the event	Emission point A, Cupola Stack after Oxidizer. Lime dosing unit for abatement of chlorides dosing line blocked and was not reinstated until 17/5
Description of where any release into the environment took place	Main stack
Substances(s) potentially released	Chlorides
Best estimate of the quantity or rate of release of substances	45 kg chlorides as HCl (estimated on 50 mg/Nm³ chlorides as HCl and 14000 Nm³/hr flow)
Measures taken, or intended to be taken, to stop any emission	The dosing line was unblocked and abatement reinstated A root cause analysis of the failure to escalate and fix the issue is to be carried out
Description of the failure or accident.	Lime dosing line blocked. The blockage was reported but it was not escalated to have lime dosing reinstated in timely fashion

(b) Notification requirements for the breach of a limit	
To be notified within 24 hours of detection unless otherwise specified below	
Emission point reference/ source	
Parameter(s)	
Limit	
Measured value and uncertainty	
Date and time of monitoring	
Measures taken, or intended to be taken, to stop the emission	

Time periods for notification following detection of a breach of a limit	
Parameter	Notification period

(c) Notification requirements for the detection of any significant adverse environmental effect	
To be notified within 24 hours of detection	
Description of where the effect on the environment was detected	
Substances(s) detected	
Concentrations of substances detected	
Date of monitoring/sampling	

Name*	Graham Jones
