A1 - Specified by permit	Ongoing (O)	1.1.1

Result types are explained in more detail in the 'Important Information' section below.

Total number of non-compliances recorded	Total non-compliance score
0	0

How we use the non-compliance score to calculate your annual fee is explained in the 'Important Information' section below.

2. What action is required?

Criteria	Action needed	Complete by
A1	Complete Steps in Suspension Notice	25/08/2021

Action criteria codes are listed in the 'Important information' section below.

3. What will happen next?

Any non-compliance we have identified and recorded on this form is an offence. It can result in criminal prosecution and/or suspension or revocation of your permit.

You are non-compliant with your permit.

We are currently considering taking enforcement action against you for the non-compliance recorded above. We will contact you in due course.

4. Details of our assessment

The purpose of the inspection was to see if the steps listed in the suspension notice have been complied with.

Mark Griffiths had to be contacted to access the site.

Step one to be completed by the **21 April 2021**- *All site boundary fences and gates to be repaired and secure to prevent unauthorised access*

A new boundary fence to the south of the site has been erected. The boundary fence adjacent domestic properties has only been temporarily repaired, being propped up with wood.

Step Two removal from site all mixed waste from outside the treatment building, by **10 June 2021**

Although mixed waste has been removed from site, there were two skips containing mixed waste that were still being stored outside

Step three: Provide a copy of all waste documentation showing the removal of waste between 1 February 2021 and 10 June 2021 by **18 June 2021**

No waste documentation received

Step four: Removal from site all mixed waste from within the treatment building by **10 August 2021**

Mark Griffiths stated he was unable to open the shutter doors or the access door at the rear of the treatment building as it was full of waste.

Step five: Provide a copy of all waste documentation showing the removal of waste between 11 June 2021 and 10 August 2021 by **18 August 2021**

During the inspection Mark Griffiths was reminded that the waste documentation could still be sent in on the day of the inspection. No waste documentation received.

The suspension notice will remain in force until all the required actions are complete.

Gareth Danter-Hill has been appointed as the TCM for the site.

A further inspection will be made on the 25 August 2021 to view any progress

Important information

Legal status of this report

Your permit is issued to you under the Environmental Permitting Regulations. You have a responsibility to comply with the conditions of your permit and prevent pollution/harm of the environment. You must also ensure that you comply with any other relevant legislation that may apply to your site's operations.

This report explains the findings of our assessment and any action you are required to take. We categorise non-compliance using our guidance for assessing non-compliance at regulated sites.

When we find potential non-compliance/s we will normally give you advice on how to maintain compliance.

To correct non-compliance, we may:

- require you to take specific actions
- issue a notice
- review the conditions of your permit.

Any advice and guidance we give will be without prejudice to any other enforcement response that we consider may be required.

Assessment results and non-compliance categories (used in section 1):

Assessment result	Description
Assessed (A)	Assessed or assessed in part, no evidence of non-compliance found
Action only (X)	Action only relating to the activity assessment
Ongoing (O)	Ongoing non-compliance, not scored

Non-compliance category	Description	Score
C1 Major	Potential to have a major, serious, persistent and/or extensive impact or effect on the environment, people and/or property	60
C2 Significant	Potential to have a significant impact or effect on the environment, people and/or property	31
C3 Minor	Potential to have a minor or minimal impact or effect on the environment, people and/or property	4
C4 No environmental impact	Non-compliance at a regulated site that cannot foreseeably have any impact on the environment, people and/or property	0.1

How we use assessment scores

The number and severity of non-compliances recorded in a year will affect your annual subsistence fee the following year. A non-compliance factor is added to your site's Operator

Performance Risk Appraisal (OPRA) score when we calculate your fee to reflect the additional resource we use to assess permit compliance.

What are suspended scores?

In line with our guidance, we may suspend scores for up to six months to allow time for remedial action to be taken. Suspended scores will be re-instated if the action is not completed.
