### Introductory note

**This introductory note does not form a part of the notice.**

The following notice gives notice of the variation and consolidation of an environmental permit.

This is an operator led variation to increase the total amount of waste to be deposited for recovery under the waste recovery plan from 100,000 tonnes to 152,683 tonnes. As a result of the increase, we have varied the permit to a tier 3 bespoke permit. No other changes have been made to the previously agreed waste recovery plan or permitted activities.

The schedules specify the changes made to the permit.

The status log of a permit sets out the permitting history, including any changes to the permit reference number.

Status log of the permit
