Method statement

Are the works within a sensitive area or one of the following activities: boreholes, replacement piles or beach management?

No

Method statement

Please give a brief method statement outlining the proposed project

Benthic baseline grab survey, collecting 6 subtidal day grabs (0.1m²) to assess the invertebrate assemblages, to inform a marine licence for the proposed extended Mostyn Energy Park extension project and for combining the existing maintenance dredge and disposal activities into that single marine licence

Please state the measures to be taken to minimise risk to the marine environment

Sampling is not being undertaken within a sensitive or protected (SSSI, MPA etc) area. Only six, single day grabs are to be collected at the site.

Please state the measures to be taken to prevent undue interference to others

Sampling will take less than one day, a notice to mariners will be issued prior to commencement of sampling. The work is also being undertaken on behalf of the Port of Mostyn and as such both the Port Director and Harbour master are aware of the proposed works

Please state the measures to be taken to maintain navigational safety, including marking and lighting of works

No fixed structures to be placed so no risk to navigational safety
