

FORM WRA: Applicant details and proposal outline

Application type and fee

Please generate a reference number. It should start with "WR" followed by your organisation or company name and today's date in four-digit format (DDMM) without spaces or punctuation. Example: WRNATURALRESOURCESWALES1101 Please use this number throughout this application. This reference number can also be used for your BACS reference if paying electronically.

WRDJONESANDSON2409

For the application types listed, complete this form and/or the relevant additional forms named below. Tick the type of application you are applying for. Please refer to our Find out if you need a licence web-page for an explanation for the different licence types. If your proposal involves multiple licence types, tick all that apply. See our Charges for abstraction and impoundment applications web page for details of application fees and how to pay.

Renewal of a time-limited licence. Also complete form WRD.

Please provide existing licence serial number, if applicable

MD/054/0001/005/V003

Please indicate how you wish to pay your application fee. If paying by BACS, please quote the reference number created in question 1 when setting up the bank transfer.

Other supporting documents

- File: Determination Abstraction Licence PDF.pdf - [Download](#)

For abstraction licence applications where you are the landowner, provide a map with the land boundary and all abstraction and discharge point(s) marked.

Please tick here to show that you have done this.

Pre-application number

Have you undertaken a pre-application enquiry or had any previous discussions with us?

Yes

Provide reference number or staff member's name

MD/054/0001/005/V003

Remediation work

Is this proposal as a result of a Restoring Sustainable Abstraction programme or other work requested by us?

No

Source of supply

State where you intend to abstract from

Surface Water. e.g. Stream, leat, spring

Provide a 12 digit National Grid Reference for the proposed or existing abstraction or impoundment point (e.g. ST 19057 76826)

312210311703

Source of supply (name of watercourse or aquifer)

Vymwy

Site name / reference(e.g. Tŷ Mawr Farm)

Pan Y Factory

Proposal summary

Please provide an outline of your proposal, including any sketches. As a guide, you should include: a description of the activities which (will) take place at your site, the means of abstraction/impoundment proposed, if the proposal is related to another licence or permit (i.e. an Environmental Permit to Discharge Water) and details of any survey work undertaken. For changes to existing licences, summarise the changes proposed. Sketches or photographs that will aid our understanding of your proposal can be uploaded below.

Seeking to renew existing licence that expires 31 March 2022. The licence is to abstract water for the purposes of a hydropower scheme commissioned in 2016. Both Abstraction Point and Discharge Point are within the boundary of land in my ownership, so all water abstracted is returned to the water course (River Vyrnwy) within the boundary of my land ownership (see earlier attached map). The Impoundment Licence (MD/054/0001/032/V003) for the weir at the point of abstraction remains valid.

Current licence allows for an instantaneous rate not exceeding 1,800 litres per second. Notwithstanding the specified maximum abstraction amount, the actual amount abstracted at any time is constrained by the Further Conditions in Point 9 of the Licence which imposes requirements in relation to HoF and also a split of the water above the HOF amount. No water that is abstracted is consumed for any purpose other than the hydropower scheme, before it is returned to the river at the discharge point.

The hydro scheme has a Net Declared Capacity of 25KW. Forecast maximum volume of water abstracted in 2021 is 1,400 l/s. The volume in earlier years will be lower due to operational complications as reflected in total KWH generated so far being under 100,000KWH

Declaration

By signing below, you are declaring that, to the best of your knowledge; the information given in this form, on any map and in any supporting or additional information; is true.
