4. Details of our assessment

Compliance Assessment Report – British Soil (Western) Ltd (EPR-WP3299FE, originally EAWML 30091)

Officers David WARWICK-BROWN inspected British Soil (Western) Ltd on 25/08/2021 for a routine

inspection. The Officer was met with Site Supervisor Garfield Ferguson. The weather was overcast, dry, and the temperature was mild. Time on site: 11:11-11:35.

Inspection

The site was generally in a good condition during the inspection.

It was noted that the pile of soil requested to be removed during the last inspection (December 2020) was still present on site. During the inspection the operator assured NRW that this waste would be moved ASAP onto the impermeable surface area of the site. On 13/09/2021, the operator confirmed that this material had been moved as stated and has provided photographic evidence of this to NRW.

Compliance

C2 – Management System and Operating Procedures – Permit condition 4 – C4 breach

The last CAR form requested for an updated version of your Environment Management System (EMS)/Working Plan, which NRW are yet to receive. As mentioned in the previous form, the most recent copy of your EMS we have was received in March 2016, but we consider this version to be a draft requiring further updating. Please refer to p.21-26 within the following document, 'How to comply with your environmental permit' for further information on what details are required within your EMS:

Action: Please update the EMS for this permit according to 'How to comply with your environmental permit'.

Further comments

All paperwork, including waste returns and WAMITAB certification, is up to date. However, the latest WAMITAB certificate provided to NRW expires on 19/09/2021 and will need to be updated in due course.

Thank you for taking the time to show us around the site during this inspection.

Important information

Legal status of this report

Your permit is issued to you under the Environmental Permitting Regulations. You have a responsibility to comply with the conditions of your permit and prevent pollution/harm of the environment. You must also ensure that you comply with any other relevant legislation that may apply to your site's operations.

This report explains the findings of our assessment and any action you are required to take. We categorise non-compliance using our guidance for assessing non-compliance at regulated sites.

When we find potential non-compliance/s we will normally give you advice on how to maintain compliance.

To correct non-compliance, we may:

- require you to take specific actions
- issue a notice
- review the conditions of your permit.

Any advice and guidance we give will be without prejudice to any other enforcement response that we consider may be required.

Assessment results and non-compliance categories (used in section 1):

Assessment result	Description
Assessed (A)	Assessed or assessed in part, no evidence of non-compliance found
Action only (X)	Action only relating to the activity assessment
Ongoing (O)	Ongoing non-compliance, not scored

Non-compliance category	Description	Score
C1 Major	Potential to have a major, serious, persistent and/or extensive impact or effect on the environment, people and/or property	60
C2 Significant	Potential to have a significant impact or effect on the environment, people and/or property	31
C3 Minor	Potential to have a minor or minimal impact or effect on the environment, people and/or property	4
C4 No environmental impact	Non-compliance at a regulated site that cannot foreseeably have any impact on the environment, people and/or property	0.1

How we use assessment scores

The number and severity of non-compliances recorded in a year will affect your annual subsistence fee the following year. A non-compliance factor is added to your site's Operator

Performance Risk Appraisal (OPRA) score when we calculate your fee to reflect the additional resource we use to assess permit compliance.

What are suspended scores?

In line with our guidance, we may suspend scores for up to six months to allow time for remedial action to be taken. Suspended scores will be re-instated if the action is not completed.
