Dear Mr. Proudlove Jones

Invalid Application

Application number PAN-015464

We have received your application to renewal licence number MD/054/0001/005, however we are unable to accept it as valid. Please read the letter below which outlines what further information is required.

Licence Holder

The current Licence Holder on the licence is 'Marc Proudlove and Beryl Jones ("the Licence Holder") trading as D. Jones and Son'. The application form only references Marc Proudlove Jones. Please can you confirm if the Licence Holder has changed?

Please provide more information for each of the points in the renewal reminder letter:

- Details about how you have used your current abstraction quantities;
Please can you confirm if any of the water you have abstracted since this licence was issued has been used for the purpose of hydroelectric power generation.
- Volumes abstracted in previous years and justification for any short fall from authorised quantities;
You have stated in the application form that abstraction volumes in earlier years have been lower due to operational complications.
Please can you submit any records/summary data that will have been collected in compliance with condition 8 of your licence. Can you please also provide further detail of what the operational complications that you have encountered were and how these were resolved.
- Volume of water you predict you will need;
Your licensed instantaneous rate of abstraction is 1,800 litres per second (l/s). You have stated in your application form that your forecasted maximum volume of water abstracted for 2021 is 1,400 l/s. Can you confirm if

**Cyfoeth
Naturiol**
Cymru
**Natural
Resources**
Wales

you have managed to achieve this instantaneous rate of abstraction so far this year. Please also confirm if you think it is likely that you will be able to utilise the maximum abstraction quantities conditioned in your licence.

If we have not received the information we have asked for within 28 days of the date of this letter, we cannot accept your application and we will return it to you, along with your application fee.

If you have any questions about your application, please contact me (see below for details).

Yours sincerely

Hannah Pearce
Water Resources Permitting Officer
