Dredging

Is your application for capital or maintenance dredging? Capital dredging is the removal of material that has not previously been dredged or has not been dredged in the last 10 years. This includes deepening or widening an existing dredge area. Maintenance dredging relates to the removal of material from areas which have previously been dredged (in the last 10 years) i.e dredging the same areas and to the same depth as before.

Capital dredging

Please provide the following details:

The last licence/application number	N/A
When sediment analysis was last undertaken	UNKNOWN
When the area was last dredged	APPROXAMATLY 30 - 40 YRS AGO

If this is to support a renewal of a marine licence, state if there are any proposed changes to operation since the last licence

NO

Will the dredged material be disposed to sea, beneficially used, or used for another purpose?

TO SEA

If disposal at sea, provide the name and code of the proposed disposal site

Tyrodyn Bay next to the Port
53°13'58.5"N 4°06'21.9"W

If beneficial use, how will the material be used and what is the proposed deposit location? Provide name of location and coordinates

NA

What material is the likely composition of the dredge sediment e.g. silt, gravel? Provide proportions of the different types of material if relevant

75% SAND BLOWN FROM A BUILDING SUPPLYER ON THE QUAYSIDE PROVIDING HIGH QUALITY SAND TO THE TRADE AND 25% SILT

Provide details of any previous exclusions from dredging/disposal/beneficial use/re-use

NONE

Application fee

Please provide the method of payment

BACS

Please complete the details below which will be required for invoicing

Customer name	DICKIES MARINE SERVICES
FAO	IAN WILLIAMS
Purchase order number	-
Address for invoice	DICKIES MARINE SRVICES PORT PENRHYN BANGOR, GWYNEDD, LL574HN
