Photo 1

The incoming watercourse (Aber Eilun) approximately 150m upstream of Brithdir Mawr Reservoir (looking upstream).

(Feb-21)

Photo 2

The incoming watercourse (Aber Eilun) approximately 100m upstream of Brithdir Mawr Reservoir (looking downstream).

(Feb-21)

Photo 3

The incoming watercourse (Aber Eilun) approximately 50m upstream of Brithdir Mawr Reservoir (looking upstream).

(Feb-21)

Photo 4

Southern inlet to reservoir (looking upstream with reservoir partially drawn down with exposed margins).

(Feb-21)

Photo 5

Brithdir Mawr Reservoir
drawn down, looking
upstream from the dam
crest.

(Feb-21)

Photo 6

Brithdir Mawr Reservoir
drawn down, looking
along upstream face of
dam from right bank.

(Feb-21)

Photo 7

Brithdir Mawr Reservoir service spillway, looking upstream from toe of dam.

(Feb-21)

Photo 8

Aber Eilun natural watercourse passing through the downstream boundary of the reservoir site (looking downstream).

(Feb-21)

Photo 9

Aber Eilun natural watercourse passing through the downstream boundary of the reservoir site (looking upstream).

(Feb-21)

Photo 10

Aber Eilun natural watercourse approximately 50m downstream of reservoir site (looking downstream).

(Feb-21)

Photo 11

Aber Eilun natural watercourse approximately 100m downstream of reservoir site (looking downstream).

(Feb-21)

Photo 12

Aber Eilun natural watercourse approximately 150m downstream of reservoir site (looking downstream).

(Feb-21)
