No action required.

3. What will happen next?

Any non-compliance we have identified and recorded on this form is an offence. It can result in criminal prosecution and/or suspension or revocation of your permit.

At this time, we do not intend to take any further action.

This statement does not stop us from taking additional enforcement action if further relevant information comes to light or offences continue.

4. Details of our assessment

On 7th October 2021 a routine visual inspection was carried out at your site.

The package treatment plant appeared to be working, no evidence of odour or spillage noticed. The discharge from the outfall was clear - no odour, litter, discolouration or fungus visible in the receiving watercourse.

At the time of my inspection, you were compliant with permit conditions.

Just a note: the entrance to the package treatment plant was difficult to open which could indicate that it may not have been used for some time - please ensure that sludge is removed from the plant and servicing/maintenance is carried out on a regular basis (when required).

If you have any queries, please do not hesitate to contact me via the email address below.
