3. What will happen next?

Any non-compliance we have identified and recorded on this form is an offence. It can result in criminal prosecution and/or suspension or revocation of your permit.

At this time, we do not intend to take any further action.

This statement does not stop us from taking additional enforcement action if further relevant information comes to light or offences continue.

4. Details of our assessment

On the 14th of September 2021 Boguslaw Pierzchala, new regulating officer for the site, and Steven White, Senior Environment Officer visited the site.

It was an announced routine inspection. During the inspection officers were accompanied by Gavin Butler (Technically Competent Manager).

The site was last visited by Natural Resources Wales (NRW) on 28th March 2019, the previous inspection is detailed in Compliance Assessment Report: CAR_NRW0034998.

The indoor depollution area was checked and appeared in good order with oils stored appropriately in separate containers within bunded tanks. Batteries were also appropriately stored.

The depollution area and the concreted yard drain to a large interceptor which is being checked on a regular basis. The interceptor is also fitted with an automated alarm which detects high level of waste fluid.

It was noted that there was no spill granules available at the time of the visit. Mr Butler was made aware of it and stated this will be addressed immediately.

Action: Please re-stock the granules in the depollution area. Please comply by the 5th of October 2021.

Waste returns:

Waste returns were checked.

Actions: Please re-inspect your Q1 2021 waste return -total amount of tonnes - to ensure it's a true reflection of what has been accepted on site.

When completing your waste returns - box2.2 please enter A19: Metal Recycling Site (Vehicle Dismantler) as your site type

Thank you for your time during the site inspection. If you have any questions regarding this compliance assessment form, please do not hesitate to contact me on the contact details below.

Kind Regards,

Boguslaw Pierzchala

Important information

Legal status of this report

Your permit is issued to you under the Environmental Permitting Regulations. You have a responsibility to comply with the conditions of your permit and prevent pollution/harm of the environment. You must also ensure that you comply with any other relevant legislation that may apply to your site's operations.

This report explains the findings of our assessment and any action you are required to take. We categorise non-compliance using our guidance for assessing non-compliance at regulated sites.

When we find potential non-compliance/s we will normally give you advice on how to maintain compliance.

To correct non-compliance, we may:

- require you to take specific actions
- issue a notice
- review the conditions of your permit.

Any advice and guidance we give will be without prejudice to any other enforcement response that we consider may be required.

Assessment results and non-compliance categories (used in section 1):

Assessment result	Description
Assessed (A)	Assessed or assessed in part, no evidence of non-compliance found
Action only (X)	Action only relating to the activity assessment
Ongoing (O)	Ongoing non-compliance, not scored

Non-compliance category	Description	Score
C1 Major	Potential to have a major, serious, persistent and/or extensive impact or effect on the environment, people and/or property	60
C2 Significant	Potential to have a significant impact or effect on the environment, people and/or property	31
C3 Minor	Potential to have a minor or minimal impact or effect on the environment, people and/or property	4
C4 No environmental impact	Non-compliance at a regulated site that cannot foreseeably have any impact on the environment, people and/or property	0.1

How we use assessment scores

The number and severity of non-compliances recorded in a year will affect your annual subsistence fee the following year. A non-compliance factor is added to your site's Operator

Performance Risk Appraisal (OPRA) score when we calculate your fee to reflect the additional resource we use to assess permit compliance.

What are suspended scores?

In line with our guidance, we may suspend scores for up to six months to allow time for remedial action to be taken. Suspended scores will be re-instated if the action is not completed.
