## Proposal summary

Please provide an outline of your proposal, including any sketches. As a guide, you should include: a description of the activities which (will) take place at your site, the means of abstraction/impoundment proposed, if the proposal is related to another licence or permit (i.e. an Environmental Permit to Discharge Water) and details of any survey work undertaken. For changes to existing licences, summarise the changes proposed. Sketches or photographs that will aid our understanding of your proposal can be uploaded below.

This is a technical variation to a 100kW hydro project, licensed under WA/067/0005/0027 (which also has an Impoundment License ref. WA/067/0005/0028).

The two variations requested are:

1. To extend the self-destruct date of the Abstraction License by 12 months i.e. such that Clause 9.10 reads "This licence shall cease to be of any effect if the abstraction it authorises has not commenced within 4 years of the licence issue date." This extension is required because of the delays imposed by the Covid-19 pandemic.

2. To move the discharge point (specified in Clause 9.4) 90m upstream, from SJ 10250 43020 to SJ 10205 42940 (Point B on the layout map). This is because the land-owner of the first location dropped out of the project. The whole scheme is now on Rhug Estate land. Scheme layout map attached.
