Invalid Applications

Licence application numbers: PAN-015795 & PAN-015796

Dear Oliver,

We have received your applications to vary two licences, but they are not complete.

You need to provide us with photographs of the proposed new discharge site of your scheme (at National Grid Reference SJ 10205 42940). For reference, I have attached a environmental report submitted by yourself in 2018, which contains photographs of the original proposed discharge site, which include the outline of the discharge pipe and proposed powerhouse (page 15).

If we have not received the information we have asked for within 28 days of the date of this letter, we cannot accept your applications and we will return them to you, along with your application fee.

If you have any questions about your applications, please contact me (see below for details).

Yours sincerely,

Deri McDonagh

Water Resources Permitting Officer
