## Proposal summary

Please provide an outline of your proposal, including any sketches.

As a guide, you should include: a description of the activities which (will) take place at your site, the means of abstraction/impoundment proposed, if the proposal is related to another licence or permit (i.e. an Environmental Permit to Discharge Water) and details of any survey work undertaken. For changes to existing licences, summarise the changes proposed. Sketches or photographs that will aid our understanding of your proposal can be uploaded below.

We are looking to extract water for drinking for the site development and also for making soft drinks. We have three borehole locations marked within the report as we are not sure of the quantity of water at each point. The attached report is very thorough and this is the first part of the process to see if we can abstract enough water from our site. We own the farm and this is part of our farm diversification.
