Previously Dafydd Jones was identified as TCM for the site, and Steffan Davies was awaiting WAMITAB certification.

Action – As discussed on site, please provide evidence that Dafydd Jones meets requirements of conditions 1.1.1 (b) and 1.1.4.

Waste acceptance and storage

Under **condition 2.2.1** and **Table 2.2** of the environmental permit, Wastes having one of the following characteristics shall not be accepted: 1 – consisting of solely or mainly dusts, powders or loose fibres. 2 – wastes that are in a form that is either sludge or liquid.

During the inspection it was noted several oil drums were stored on hardstanding on inspection these were full of an unidentified liquid. No spills were identified during the inspection in the surrounding area .

This has been scored as a **category 3** breach of **permit condition 2.2.1**.

Action – All non-permitted wastes on site must be removed to an appropriately licenced facility.

Asbestos was stored in line with the conditions of the permit.

Many thanks for your time during the inspection.

If you have any queries about this report, or to discuss completion of any actions, please contact the NRW Officer named above.

Important information

Legal status of this report

Your permit is issued to you under the Environmental Permitting Regulations. You have a responsibility to comply with the conditions of your permit and prevent pollution/harm of the environment. You must also ensure that you comply with any other relevant legislation that may apply to your site's operations.

This report explains the findings of our assessment and any action you are required to take. We categorise non-compliance using our guidance for assessing non-compliance at regulated sites.

When we find potential non-compliance/s we will normally give you advice on how to maintain compliance.

To correct non-compliance, we may:

- require you to take specific actions
- issue a notice
- review the conditions of your permit.

Any advice and guidance we give will be without prejudice to any other enforcement response that we consider may be required.

Assessment results and non-compliance categories (used in section 1):

Assessment result	Description
Assessed (A)	Assessed or assessed in part, no evidence of non-compliance found
Action only (X)	Action only relating to the activity assessment
Ongoing (O)	Ongoing non-compliance, not scored

Non-compliance category	Description	Score
C1 Major	Potential to have a major, serious, persistent and/or extensive impact or effect on the environment, people and/or property	60
C2 Significant	Potential to have a significant impact or effect on the environment, people and/or property	31
C3 Minor	Potential to have a minor or minimal impact or effect on the environment, people and/or property	4
C4 No environmental impact	Non-compliance at a regulated site that cannot foreseeably have any impact on the environment, people and/or property	0.1

How we use assessment scores

The number and severity of non-compliances recorded in a year will affect your annual subsistence fee the following year. A non-compliance factor is added to your site's Operator

Performance Risk Appraisal (OPRA) score when we calculate your fee to reflect the additional resource we use to assess permit compliance.

What are suspended scores?

In line with our guidance, we may suspend scores for up to six months to allow time for remedial action to be taken. Suspended scores will be re-instated if the action is not completed.
