

Compliance Assessment Report CAR_NRW0038874

Permit being assessed: BP3995CY.

For: Lovatt Brothers, held by Lovatt Brothers Ltd

At: Lovatt Bros, Goetre Villa, Abermule, Montgomery, Powys, SY15 6NW.

Type of assessment carried out: Site Inspection, Reason: Routine.

On 22/10/2021 between 13:10 and 13:45.

Parts of permit assessed: Infrastructure storage amenity

NRW Lead Officer: Kim Jones, accompanied by Ffion Quan.

Report sent to: Mike Lovatt, Manager on 29/10/2021.

1. Summary of our findings (full details in section 4)

Part of permitted activity assessed (criteria)	Assessment result	Permit condition
B4 - Infrastructure - Containment of stored materials	Assessed (A)	
C4 - General Management - Storage, handling labelling and Segregation	Assessed (A)	
F1 - Amenity - Odour	Assessed (A)	
F2 - Amenity - Noise	Assessed (A)	
F3 - Amenity - Dust/fibres/particulates and litter	Assessed (A)	
F4 - Amenity - Pests/birds and scavengers	Assessed (A)	
F5 - Amenity - Deposits on road	Assessed (A)	

Result types are explained in more detail in the 'Important Information' section below.

Total number of non-compliances recorded	Total non-compliance score
0	0

How we use the non-compliance score to calculate your annual fee is explained in the 'Important Information' section below.

2. What action is required?

No action required.

3. What will happen next?

Any non-compliance we have identified and recorded on this form is an offence. It can result in criminal prosecution and/or suspension or revocation of your permit.

At this time, we do not intend to take any further action.

This statement does not stop us from taking additional enforcement action if further relevant information comes to light or offences continue.

4. Details of our assessment

On Friday 22nd October 2021, officers Kim Jones and Ffion Quan visited Lovatt Brothers Ltd in Abermule. This was a planned announced visit as an email had been sent to Kayleigh Lovatt however when we arrived Darren Lovatt, TCM and Mike Lovatt Manager were not aware we were visiting. In future officers will ensure correspondence is copied to Darren and Mike.

The site was last inspected on 5/12/2018 and it is understood several improvements had been agreed at this time. On arrival at the site there was a large clear sign at the entrance and the tarmac roadway into the site was clean of mud and debris. There was a safe area to park our vehicle and the site office was easily identified.

We were immediately met by Darren and we explained the purpose of our visit and were then introduced to Mike. Before being shown around the site, Mike asked if we would check his 2 most recent hazardous waste consignment notes and confirm if they were now fully compliant. The notes were inspected and all sections were compliant with the times clearly recorded which was an action required from the hazardous waste consignment note audit carried out in May 2021.

The main yard that we could clearly see from the office was all concrete and it was in good condition with no obvious cracks and damage. The far end of the site and the site boundary was not inspected.

Officers were shown inside the building used to store the more valuable metals and batteries. The batteries are placed in an appropriate container on the yard which has a cover and when it is full it is transferred into the building and stored in a designated area.

There was a clean water drain on the yard just outside this building which Mike explained was connected to the interceptor which discharges to a soakaway. The interceptor was not inspected during this visit.

Polluted and de-polluted end of life vehicles were seen to be clearly segregated on the yard but the depollution bay was not inspected as the employee carrying out this operation was not available.

Mike showed us that various segregated waste types such as ferrous, aluminium, plastic, wood and glass was all stored in designated areas on the yard with the mixed general waste stored under cover in a building to minimise contamination with rain water.

There is one small area near the parked vehicles that is unmade ground and this is currently being used to store inert waste which is acceptable.

During the visit officers confirmed there were no odours, no excessive noise, no evidence of pests or dust and no deposits on the road.

Thank you for your time during the visit.

If you have any queries about this report, or to discuss completion of any actions, please contact the NRW Officer named above.

Important information

Legal status of this report

Your permit is issued to you under the Environmental Permitting Regulations. You have a responsibility to comply with the conditions of your permit and prevent pollution/harm of the environment. You must also ensure that you comply with any other relevant legislation that may apply to your site's operations.

This report explains the findings of our assessment and any action you are required to take. We categorise non-compliance using our guidance for assessing non-compliance at regulated sites.

When we find potential non-compliance/s we will normally give you advice on how to maintain compliance.

To correct non-compliance, we may:

- require you to take specific actions
- issue a notice
- review the conditions of your permit.

Any advice and guidance we give will be without prejudice to any other enforcement response that we consider may be required.

Assessment results and non-compliance categories (used in section 1):

Assessment result	Description
Assessed (A)	Assessed or assessed in part, no evidence of non-compliance found
Action only (X)	Action only relating to the activity assessment
Ongoing (O)	Ongoing non-compliance, not scored

Non-compliance category	Description	Score
C1 Major	Potential to have a major, serious, persistent and/or extensive impact or effect on the environment, people and/or property	60
C2 Significant	Potential to have a significant impact or effect on the environment, people and/or property	31
C3 Minor	Potential to have a minor or minimal impact or effect on the environment, people and/or property	4
C4 No environmental impact	Non-compliance at a regulated site that cannot foreseeably have any impact on the environment, people and/or property	0.1

How we use assessment scores

The number and severity of non-compliances recorded in a year will affect your annual subsistence fee the following year. A non-compliance factor is added to your site's Operator

Performance Risk Appraisal (OPRA) score when we calculate your fee to reflect the additional resource we use to assess permit compliance.

What are suspended scores?

In line with our guidance, we may suspend scores for up to six months to allow time for remedial action to be taken. Suspended scores will be re-instated if the action is not completed.

Full list of Industry and Waste action criteria (used in section 1 and 2):

A: Permitted activities

- A1 Specified by permit

B: Infrastructure

- B1 Infrastructure – Engineering for prevention and control of emissions
- B2 Infrastructure – Closure and decommissioning
- B3 Infrastructure – Site drainage engineering (clean and foul)
- B4 Infrastructure – Containment of stored materials
- B5 Infrastructure – Plant and equipment

C: General management

- C1 General management – Staff competency/training
- C2 General management – Management system and operating procedures
- C3 General management – Materials acceptance
- C4 General management – Storage, handling, labelling and segregation

D: Incident management

- D1 Incident management – Site security
- D2 Incident management – Accidents, emergency and incident planning

E: Emissions

- E1 Emissions – Air
- E2 Emissions – Land and groundwater
- E3 Emissions – Surface water
- E4 Emissions – Sewer
- E5 Emissions – Waste

F: Amenity

- F1 Amenity – Odour
- F2 Amenity – Noise
- F3 Amenity – Dust/fibres/particulates and litter
- F4 Amenity – Pests/birds and scavengers
- F5 Amenity – Deposits on road

G: Monitoring and records, maintenance and reporting

- G1 Monitoring and records, maintenance and reporting – Monitoring of emissions and environment
- G2 Monitoring and records, maintenance and reporting – Records of activity, site diary/journal/events
- G3 Monitoring and records, maintenance and reporting – Maintenance records
- G4 Monitoring and records, maintenance and reporting – Reporting and notification to Natural Resources Wales

H: Resources efficiency

- H1 Resource efficiency – Efficient use of raw materials
- H2 Resource efficiency – Energy efficiency

Enforcement response

Any permit condition non-compliance is an offence and we may take legal action against you. Action we take can include prosecution, serving a notice on you and/or suspension or revocation of your permit. See our Enforcement and Sanctions Guidance for further information.

Data protection notice

You should make sure that anyone named in this report knows that the information it contains will be processed by Natural Resources Wales to fulfil its regulatory and monitoring functions and to maintain the relevant public register(s).

We may also use and/or disclose the report in connection with:

- offering or providing you with our literature or services relating to environmental matters
- consulting with the public, public bodies and other organisations (e.g. Health and Safety Executive, local authorities) on environmental issues
- carrying out statistical analysis, research and development on environmental issues
- providing public register information to enquirers
- investigating possible breaches of environmental law
- assessing customer service satisfaction and improving our service
- Freedom of Information Act or Environmental Information Regulations requests.

We may also pass it on to our agents or representatives to do these things on our behalf.

Disclosure of information – this report will be available to view on-line

If you think this report contains commercially confidential information that should not be placed on our public register, you must contact your local Natural Resources Wales office within **fifteen working days** of receiving this report, using the contact details in the accompanying email or letter. You must give a full explanation of why it should not be added to our public register, including specifying which information is commercially confidential. We will assess your request and respond to you within 20 working days to let you know if we agree to your request.

What do I do if I disagree with the report or have a complaint?

If you disagree with this compliance assessment report, you should contact the lead officer without delay to discuss your concerns.

If you are unable to resolve the issue with the lead officer or their line manager you should contact our Customer Contact team on 0300 065 3000 (Monday to Friday 08:00 – 18:00), or email enquiries@naturalresourceswales.gov.uk for details of how to raise your dispute further through our Complaints and Commendations procedure.

If you are dissatisfied with our response, you can contact the Public Services Ombudsman for Wales by phone on 0300 7900203 or by email at ask@ombudsman.wales

Welsh Language Standards

We are committed to establishing Natural Resources Wales as a naturally bilingual organisation. We will provide compliance reports in your preferred language.
