

FORM WRA: Applicant details and proposal outline

Application type and fee

Please generate a reference number. It should start with "WR" followed by your organisation or company name and today's date in four-digit format (DDMM) without spaces or punctuation. Example: WRNATURALRESOURCESWALES1101 Please use this number throughout this application. This reference number can also be used for your BACS reference if paying electronically.

WRWELSHWATERBM1709

For the application types listed, complete this form and/or the relevant additional forms named below. Tick the type of application you are applying for. Please refer to our Find out if you need a licence web-page for an explanation for the different licence types. If your proposal involves multiple licence types, tick all that apply. See our Charges for abstraction and impoundment applications web page for details of application fees and how to pay.

New impoundment licence. Also complete form WRE.

Please indicate how you wish to pay your application fee. If paying by BACS, please quote the reference number created in question 1 when setting up the bank transfer. If paying by cheque, please ensure you add the six digit cheque number below.

Pre-application number

Have you undertaken a pre-application enquiry or had any previous discussions with us?

No

Remediation work

Is this proposal as a result of a Restoring Sustainable Abstraction programme or other work requested by us?

No

Source of supply

State where you intend to abstract from

Not applicable (Impoundment application)

Provide a 12 digit National Grid Reference for the proposed or existing abstraction or impoundment point (e.g. ST 19057 76826)

SJ1791262658

Source of supply (name of watercourse or aquifer)

Aber Eilun

Site name / reference(e.g. Tŷ Mawr Farm)

Brithdir Mawr Reservoir

Proposal summary

Please provide an outline of your proposal, including any sketches. As a guide, you should include: a description of the activities which (will) take place at your site, the means of abstraction/impoundment proposed, if the proposal is related to another licence or permit (i.e. an Environmental Permit to Discharge Water) and details of any survey work undertaken. For changes to existing licences, summarise the changes proposed. Sketches or photographs that will aid our understanding of your proposal can be uploaded below.

Discontinuance of Brithdir Mawr reservoir.

This reservoir is no longer required as part of Dŵr Cymru Welsh Water's (DCWW) water resources. The reservoir in its current form presents a significant inundation flood risk in the event of dam failure. If the reservoir is to be retained extensive remedial and improvement works will be required to the dam to satisfy current reservoir safety standards and to ensure ongoing compliance with the Reservoirs Act 1975. The preferred option for this reservoir is to remove the dam which will result in the full discontinuance of the reservoir.

The dam in its entirety will be removed, ensuring no future impoundment, with the excavated material used to re-landscape the upstream reservoir basin, which will then be allowed to revegetate.
