

Compliance Assessment Report CAR_NRW0038934

Permit being assessed: LB3093HH.

For: Lower Chapel Bridge Yard, held by G L J Recycling Ltd

At: Chapel Bridge Yard, Cwmcarn, Crosskeys, Caerphilly, NP11 7NL.

Type of assessment carried out: Site Inspection, Reason: Routine.

On 05/11/2021 between 13:30 and 14:40.

Parts of permit assessed: Various

NRW Lead Officer: Jonathan Lee.

Report sent to: Gareth Jones, Site Manager/Director on 15/11/2021.

1. Summary of our findings (full details in section 4)

Part of permitted activity assessed (criteria)	Assessment result	Permit condition
A1 - Specified by permit	Assessed (A)	
B3 - Infrastructure - Site drainage engineering (clean and foul)	Assessed (A)	
B4 - Infrastructure - Containment of stored materials	Assessed (A)	
C1 - General Management - Staff competency/training	Assessed (A)	
C2 - General Management - Management system and operating procedures	Assessed (A)	
C3 - General Management - Materials acceptance	Assessed (A)	
C4 - General Management - Storage, handling labelling and Segregation	Assessed (A)	
D1 - Incident Management - Site security	Assessed (A)	

Result types are explained in more detail in the 'Important Information' section below.

Total number of non-compliances recorded	Total non-compliance score
0	0

How we use the non-compliance score to calculate your annual fee is explained in the 'Important Information' section below.

2. What action is required?

No action required.

3. What will happen next?

Any non-compliance we have identified and recorded on this form is an offence. It can result in criminal prosecution and/or suspension or revocation of your permit.

At this time, we do not intend to take any further action.

This statement does not stop us from taking additional enforcement action if further relevant information comes to light or offences continue.

4. Details of our assessment**Compliance Assessment Report – EPR/LB3093HH**

This report considers an inspection of the environmental permit **EPR-LB3093HH** held by GLJ Recycling Limited completed by Officer Jonathan Lee. Weather was cool but dry. Officer Lee met with Director and site manager Mr Gareth Jones.

The permit comprises the following standard rulesets: -

- SR2008 No3 – Household, commercial and industrial waste transfer station with treatment
- SR2008 No23 – Waste electrical and electronic equipment authorised treatment (ATF) excluding ozone-depleting substances

The inspection was arranged to complete a routine inspection of the permitted area, and following reports made regarding ongoing construction works to the Northern end of the GLJ Recycling Limited site. Given the overlap in regulatory remit, a joint visit was arranged and conducted in the company of planning enforcement officer Mr Jonathan Brooks from Caerphilly County Borough Council.

An inspection of the metal recycling/ELV permit, reference *EPR-DB309TJ* held by GLJ Recycling Limited at the same site was completed at the same time. A separate compliance assessment report is to be issued for this inspection.

Inspection Observations

The waste transfer station activities and areas of the site were inspected. The 'old' waste transfer station building to the Northern end of the site had now been dismantled, and all wastes removed from this area. The 'new' waste transfer station building on the Eastern edge of the site is now solely being used for storage and any processing of incoming general/bulky wastes.

During the inspection, it was advised that as per permit condition 2.3.1 and Table 2.3 'Operating techniques' that unless specified waste, all waste shall be stored within a building or within a secure container. No issues with drainage infrastructure noted. No issues with waste types present noted. It was noted that some general waste had recently been shredded via mobile plant on site to aid transport for onward recovery/disposal.

It was noted that the operator had recently commissioned construction works to the Northern end of the site, in the area of and behind the 'old' waste transfer station building. In this area new concrete panels had been installed to form a boundary fence along the site boundary. It was noted that these works had been conducted to formalise the site boundary and that the previous fencing had fallen into disrepair. No wastes were being stored and no waste processing activities were being conducted in this area.

No WEEE activities were taking place during the inspection.

Permit Compliance

No permit breaches were noted during this inspection.

If you have any issues with this report, please contact Officer Jonathan LEE on 0300 065 3908 or via email at jonathan.lee@naturalresourceswales.gov.uk

In this document 'Natural Resources Wales' means the Natural Resource Body for Wales established by Article 3 of the Natural Resources Body for Wales Establishment) Order 2012

If you have any queries about this report, or to discuss completion of any actions, please contact the NRW Officer named above.

Important information

Legal status of this report

Your permit is issued to you under the Environmental Permitting Regulations. You have a responsibility to comply with the conditions of your permit and prevent pollution/harm of the environment. You must also ensure that you comply with any other relevant legislation that may apply to your site's operations.

This report explains the findings of our assessment and any action you are required to take. We categorise non-compliance using our guidance for assessing non-compliance at regulated sites.

When we find potential non-compliance/s we will normally give you advice on how to maintain compliance.

To correct non-compliance, we may:

- require you to take specific actions
- issue a notice
- review the conditions of your permit.

Any advice and guidance we give will be without prejudice to any other enforcement response that we consider may be required.

Assessment results and non-compliance categories (used in section 1):

Assessment result	Description
Assessed (A)	Assessed or assessed in part, no evidence of non-compliance found
Action only (X)	Action only relating to the activity assessment
Ongoing (O)	Ongoing non-compliance, not scored

Non-compliance category	Description	Score
C1 Major	Potential to have a major, serious, persistent and/or extensive impact or effect on the environment, people and/or property	60
C2 Significant	Potential to have a significant impact or effect on the environment, people and/or property	31
C3 Minor	Potential to have a minor or minimal impact or effect on the environment, people and/or property	4
C4 No environmental impact	Non-compliance at a regulated site that cannot foreseeably have any impact on the environment, people and/or property	0.1

How we use assessment scores

The number and severity of non-compliances recorded in a year will affect your annual subsistence fee the following year. A non-compliance factor is added to your site's Operator

Performance Risk Appraisal (OPRA) score when we calculate your fee to reflect the additional resource we use to assess permit compliance.

What are suspended scores?

In line with our guidance, we may suspend scores for up to six months to allow time for remedial action to be taken. Suspended scores will be re-instated if the action is not completed.

Full list of Industry and Waste action criteria (used in section 1 and 2):**A: Permitted activities**

- A1 Specified by permit

B: Infrastructure

- B1 Infrastructure – Engineering for prevention and control of emissions
- B2 Infrastructure – Closure and decommissioning
- B3 Infrastructure – Site drainage engineering (clean and foul)
- B4 Infrastructure – Containment of stored materials
- B5 Infrastructure – Plant and equipment

C: General management

- C1 General management – Staff competency/training
- C2 General management – Management system and operating procedures
- C3 General management – Materials acceptance
- C4 General management – Storage, handling, labelling and segregation

D: Incident management

- D1 Incident management – Site security
- D2 Incident management – Accidents, emergency and incident planning

E: Emissions

- E1 Emissions – Air
- E2 Emissions – Land and groundwater
- E3 Emissions – Surface water
- E4 Emissions – Sewer
- E5 Emissions – Waste

F: Amenity

- F1 Amenity – Odour
- F2 Amenity – Noise
- F3 Amenity – Dust/fibres/particulates and litter
- F4 Amenity – Pests/birds and scavengers
- F5 Amenity – Deposits on road

G: Monitoring and records, maintenance and reporting

- G1 Monitoring and records, maintenance and reporting – Monitoring of emissions and environment
- G2 Monitoring and records, maintenance and reporting – Records of activity, site diary/journal/events
- G3 Monitoring and records, maintenance and reporting – Maintenance records
- G4 Monitoring and records, maintenance and reporting – Reporting and notification to Natural Resources Wales

H: Resources efficiency

- H1 Resource efficiency – Efficient use of raw materials
- H2 Resource efficiency – Energy efficiency

Enforcement response

Any permit condition non-compliance is an offence and we may take legal action against you. Action we take can include prosecution, serving a notice on you and/or suspension or revocation of your permit. See our Enforcement and Sanctions Guidance for further information.

Data protection notice

You should make sure that anyone named in this report knows that the information it contains will be processed by Natural Resources Wales to fulfil its regulatory and monitoring functions and to maintain the relevant public register(s).

We may also use and/or disclose the report in connection with:

- offering or providing you with our literature or services relating to environmental matters
- consulting with the public, public bodies and other organisations (e.g. Health and Safety Executive, local authorities) on environmental issues
- carrying out statistical analysis, research and development on environmental issues
- providing public register information to enquirers
- investigating possible breaches of environmental law
- assessing customer service satisfaction and improving our service
- Freedom of Information Act or Environmental Information Regulations requests.

We may also pass it on to our agents or representatives to do these things on our behalf.

Disclosure of information – this report will be available to view on-line

If you think this report contains commercially confidential information that should not be placed on our public register, you must contact your local Natural Resources Wales office within **fifteen working days** of receiving this report, using the contact details in the accompanying email or letter. You must give a full explanation of why it should not be added to our public register, including specifying which information is commercially confidential. We will assess your request and respond to you within 20 working days to let you know if we agree to your request.

What do I do if I disagree with the report or have a complaint?

If you disagree with this compliance assessment report, you should contact the lead officer without delay to discuss your concerns.

If you are unable to resolve the issue with the lead officer or their line manager you should contact our Customer Contact team on 0300 065 3000 (Monday to Friday 08:00 – 18:00), or email enquiries@naturalresourceswales.gov.uk for details of how to raise your dispute further through our Complaints and Commendations procedure.

If you are dissatisfied with our response, you can contact the Public Services Ombudsman for Wales by phone on 0300 7900203 or by email at ask@ombudsman.wales

Welsh Language Standards

We are committed to establishing Natural Resources Wales as a naturally bilingual organisation. We will provide compliance reports in your preferred language.
