### Introductory note

#### **This introductory note does not form a part of the notice**

The following notice gives notice of the variation of an environmental permit.

Harp International Limited applied to vary their existing permit in order to offer a disposal service for waste refrigerant oil. Plastic containers, 10 or 20 litres in volume, will be provided to customers. When returned the containers will be segregated, weighed and the oil transferred to a bulk storage tank, pending removal from site for recovery by an appropriate contractor. A maximum of five tonnes of waste oil is to be stored at any one time. Waste codes 13 02 05\* and 13 02 08\* have been added to Table S2.1.

D15 from the list of WFD operations has been added to Table S1.1 for activity reference A1, as it had previously been omitted. R13 has been left in the table as it is now relevant to the waste oil.

A varied and consolidated permit has been issued.

The schedules specify the changes made to the original permit.

The status log of a permit sets out the permitting history, including any changes to the permit reference number.
