

Notice of request for more information
Environmental Permitting (England and Wales)
Regulations 2016

Notice requiring further information

To: Mr Duncan Davies
Cwm Farm
Aberhafesp
Newtown
Powys
SY16 3JD

Application number: PAN-001955

Natural Resources Wales, in exercise of its powers under paragraph 4 of Part 1 of Schedule 5 of the above Regulations, requires you to provide the information detailed in the attached schedule. The information is required in order to determine your application for a permit, dated 22/09/2017. The information requested should be sent to the following address by 15 December 2017.

A copy of this notice has been sent to your agent, Gail Lewis.

Information should be sent to:

Permitting Service
Natural Resources Wales

Name	Date
Paul Williams	27/11/2017

Authorised on behalf of Natural Resources Wales

Canolfan Trwyddedu, Cyfoeth Naturiol Cymru, Tŷ Cambria, 29 Heol Casnewydd, Caerdydd. CF24 0TP
Wales Permitting Service, Natural Resources Wales, Cambria House, 29 Newport Road, Cardiff. CF24 0TP

Schedule

1. Please submit to Natural Resources Wales an accurate site plan to an appropriate scale, showing the location of the proposed surface water soakaway/s.
2. Please submit an “in combination assessment” of the potential ammonia impacts on the Gregynog SSSI at which the ammonia modelling report submitted with the application has indicated a concentration above the 1% threshold. For details of the assessment needed, please refer to Natural Resources Wales Guidance Note 020.
3. Please submit a report detailing all relevant information that you currently hold, or are aware of regarding the Cwm Wood ancient woodland (which is located to the west and adjacent to the proposed installation) and the unnamed ancient woodland that is within the proposed installation boundary. The relevant information being any information regarding the conservation status of the woodlands, description of the habitats, species present, including lichens and bryophytes and details of any interested third parties or landowners. The report should also include, if known, any information on current or historic management of these woodlands including any thinning, felling and re-stocking or any grazing within the woods.
