Variation number

EPR/AB3391CD/V002

Permit number

EPR/AB3391CD

Ystym Colwyn Farm Poultry Unit

Permit number EPR/AB3391CD

Introductory note

This introductory note does not form a part of the notice.

The following notice gives notice of the variation and consolidation of an environmental permit.

This variation authorises an increase to the installation boundary, the operation of an additional 4 poultry buildings and an increase in the number of birds which can be kept at this installation from 100,000 to 340,000.

The Industrial Emissions Directive (IED) came into force on 7th January 2014 with the requirement to implement all relevant BAT conclusions as described in the Commission Implementing Decision. The Intensive Farming BAT conclusions were published on 21st February 2017 in the Official Journal of the European Union following a European Union wide review of BAT.

This variation incorporates the changes required by the Industrial Emissions Directive. This includes the amendment of the wording of several permit conditions relating to notifications, monitoring and reporting. At the same time the permit has been converted into the current EPR Permit format.

The schedules specify the changes made to the permit.

The status log of a permit sets out the permitting history, including any changes to the permit reference number.

Status log of the permit		
Description	Date	Comments
Application PAN-000441 received	20/06/2016	Application for 100,000 broiler places installation permit.
