This letter contains web links to other documents. If you aren't able to access these phone our Customer Services Centre on 0300 065 3000 for help.

You need to read our document 'How to comply with your environmental permit'. This will help you understand what you need to do to meet the conditions of your permit. You can find this on the our guidance web page at:
http://naturalresources.wales/permits-and-permissions/environmental-permits/guidance-to-help-you-comply-with-your-environmental-permit/?lang=en

Please look at the table below and note any of the things that apply to your permit.

If…	then..
you plan to keep your records at a site other than where the activity takes place	you need to let us know within 20 working days of receiving this letter.
you need to submit other returns	send these to your area office. Speak to your area officer to check local arrangements.

There is an annual subsistence charge for your permit unless:

- your permit is only for discharges of sewage effluent where the maximum daily volume of discharge permitted is five cubic metres or less (this does not apply to non trade effluent or any other type of discharge);
- or your permit is only for mobile plant, instead we will charge for each deployment.

The annual charge is due on demand in the year that we issue the permit and then on 1 April each year. The charge starts from the date we authorise the permit, unless there's a condition relating to a standalone water discharge which states a later start date. In that case we will charge for the discharge from the start date. If you need to know more about the subsistence charge please look at the charging guidance on our website at: http://naturalresources.wales/about-us/what-we-do/how-we-regulate-you/our-charges/?lang=en
