Introductory note

This introductory note does not form a part of the notice

The following notice gives notice of the variation of an environmental permit.

The applicant has applied to vary their permit to include two additional biomass boilers, with thermal inputs of 199kw and 300kw respectively. They are shown on the site plan as boiler numbers two and four respectively.

The schedules specify the changes made to the original permit.

The status log of a permit sets out the permitting history, including any changes to the permit reference number.

Status log of the permit

Table S1.1 activities		
Activity listed in Schedule 1 of the EP Regulations	Description of specified activity	Limits of specified activity
Section 6.9 A(1)(a)(i) Rearing of poultry intensively in an installation with more than 40,000 places	The rearing of poultry in a facility with a capacity for 150,000 broiler places.	From receipt of birds, raw materials and fuels onto the site to removal of birds and associated wastes from site
Directly Associated Activity		
Biomass Boilers	Operation of Biomass Boilers with an aggregated thermal rated input not exceeding 0.9MWth for site heating requirements, burning biomass fuel.	From receipt of raw materials and fuels, to release of combustion products to air and associated wastes removed from site. Biomass fuel comprising only virgin timber, straw, miscanthus or grade A “clean” recycled wood. See table S2.2. Not to include any waste material other than that specified above. Not to include animal carcasses.

Table S3.1 has been replaced by the table below.
