

Compliance Assessment Report

Report ID:
CAR_NRW0026468

This form will report compliance with your permit as determined by an NRW officer

Site	Rassau Recycling Facility EPR/EP3230BW	Permit Ref	EP3230BW			
Operator/Permit holder	Envirowales Ltd					
Regime	Installations					
Date of assessment	09/09/2016	Time in	10:30	Out	12:30	
Assessment type	Audit					
Parts of the permit assessed	As indicated below					
Lead officer's name	Griffiths, David					
Accompanied by						
Recipient's name/position	Mr Brian Kelly / EHS Director	Date issued	14/10/2016			

Section 1 – Compliance Assessment Summary

This is based on the requirements of the permit under the Environmental Permitting Regulations. A detailed explanation is captured in "Compliance Assessment Report Detail" (Section 2) and any actions you may need to take are given in the "Action(s)" (section 4). This summary details where we believe any non-compliance with the permit has occurred, the relevant condition and how the non-compliance has been categorised using our Compliance Classification Scheme (CCS). CCS Scores can be consolidated or suspended where appropriate, to reflect the impact of some non-compliances more accurately. For more details of our CCS scheme, contact your local office.

Permit conditions and compliance summary	CCS Category	Condition(s) breached
A1 - Specified by permit	A	
C2 - General Management - Management system and operating procedures	A	
D1 - Incident Management - Site security	A	

KEY: See Section 5 for breach categories, suspended scores will be indicated as such.

A = Assessed or assessed in part (no evidence of non-compliance), **X** = Action only,

O = Ongoing non-compliance, not scored.

Number of breaches recorded	0	Total compliance score (see section 5 for scoring scheme)	0
-----------------------------	---	--	---

If the Number of breaches recorded is greater than zero, please see Section 3 for our proposed enforcement response

Section 2 – Compliance Assessment Report Detail

This section contains a report of our findings and will usually include information on:

- The part(s) of the permit that were assessed (eg. Maintenance, training, combustion plant, etc)
- Where the type of assessment was 'Data Review' details of the report/results triggering the assessment
- Any non-compliances identified
- Any non-compliances with directly applicable legislation
- Details of any multiple non-compliances
- Information on the compliance score accrued inc.
- Details of advice given
- Any other areas of concern
- Any actions requested
- Any examples of good practice
- A reference to photos taken

Routine Site Meeting with Brian Kelly and Terrie Williams

Carbon Monoxide (CO), Oxides of Nitrogen (NOX)

Discussion regarding Carbon Monoxide (CO), Oxides of Nitrogen (NOX) AEL's in the Non Ferrous BAT Conclusions and the observation around that there is no CO limit and NOX is not relevant for Battery Breaking.

For clarification you currently have a CO Limit of 1000 mg/m³ and Oxides of Nitrogen 100 mg/m³ (as per our previous discussion with actual NOX being measured, not using Oxygen corrections)

As we currently understand it these limits will remain in the Permit as we go through the IED process, if you want them removed, you can apply for a variation with a full justification and assessment of the impact of increased emissions. Obviously the BREFS do not address all issues, so IED requires us to set ELV's where the BREF doesn't (article 14).

Emissions Calculations

Further to your query detailed below:

1. Sewer

The weekly sample results are entered into a spreadsheet that includes discharged volumes, (metered)

The formulae in the spreadsheet then multiplies the concentration of the parameter by the discharged volume over the same period and gives a result in kg.

1. Mass emissions to air

Similarly, the sample result obtained during routine sampling is entered into a spreadsheet that

includes rate of discharge. The concentration of the parameter is multiplied by the volume discharged for the sampling period giving a result in kg of that parameter.

For both scenarios, the sample result is assumed to be constant over the time period. For emissions to air, the VFR is assumed to be constant over the time period.

NRW conclude that this seems reasonable, assuming the reference conditions are consistent.

OMA – Operator Monitoring Assessment

NRW plan to undertake this assessment in mid-November and will forward all necessary documentation prior to this Audit

EPR Compliance Assessment Report

**Report ID:
CAR_NRW0026468**

This form will report compliance with your permit as determined by an NRW officer

Site	Rassau Recycling Facility EPR/EP3230BW	Permit Ref	EP3230BW
Operator/Permit holder	Envirowales Ltd	Date	09/09/2016

Section 3 – Enforcement Response

You must take immediate action to rectify any non-compliance and prevent repetition.

Non-compliance with your permit conditions constitutes an offence and can result in criminal prosecutions and/or suspension or revocation of a permit. Please read the detailed assessment in Section 2 and the steps you need to take in Section 4 below.

Other than the provision of advice and guidance, at present we do not intend to take further enforcement action in respect of the non-compliance identified above. This does not preclude us from taking enforcement action if further relevant information comes to light or advice isn't followed.

Section 4 – Action(s)

This section summarises the actions identified during the assessment along with the timescales for when they will need to be completed.

Criteria Ref.	CCS Category	Action required/advised	Due Date
See Section 1 above			

Section 5 – Compliance notes for the Operator

To ensure you correct actual or potential non-compliance we may

- Advise on corrective actions verbally or in writing
- Require you to take specific actions verbally or in writing
- Issue a notice
- Require you to review your procedures or management system
- Change some of the conditions of your permit
- Decide to undertake a full review of your permit

Any breach of a permit condition is an offence and we may take legal action against you

- We will normally provide advice and guidance to assist you to come back into compliance either after an offence is committed or where we consider that an offence is likely to be committed. This is without prejudice to any other enforcement response that we consider may be required.
- Enforcement action can include the issue of a formal caution, prosecution, the service of a notice and/or suspension or revocation of the permit.

See our Enforcement and Civil Sanctions guidance for further information

This report does not relieve the site operator of the responsibility to

- Ensure you comply with the conditions of the permit at all times and prevent pollution of the environment
- Ensure you comply with other legislative provisions which may apply

Non-compliance scores and categories

CCS category	Description	Score
C1	A non-compliance that could have a major environmental effect	60
C2	A non-compliance which could have a significant environmental effect	31
C3	A non-compliance which could have a minor environmental effect	4
C4	A non-compliance which has no potential environmental effect	0.1

Operational Risk Appraisal (Opra) - Compliance assessment findings may affect your Opra score and/or your charges. This score influences the resource we use to assess permit compliance.

Section 6 – General information

Data protection notice

The information on this form will be processed by the Natural Resources Wales (NRW) to fulfil its regulatory and monitoring functions and to maintain the relevant public register(s). The NRW may also use and/or disclose it in connection with:

- Offering/providing you with its literature/services relating to environmental matters
- Consulting with the public, public bodies and other organisations (eg. Health and Safety Executive, local authorities) on environmental issues
- Carrying out statistical analysis, research and development on environmental issues
- Providing public register information to enquirers
- Investigating possible breaches of environmental law
- Assessing customer service satisfaction and improving its service
- Freedom of Information Act/Environmental Regulations request

The NRW may pass it on to its agents/representatives to do these things on its behalf. You should ensure that any persons named on this form are informed of the contents of this data protection notice.

Disclosure of information

The NRW will provide a copy of this report to the public register(s). However, if you consider that any information contained in this reports should not be released to the public register(s) on the grounds of commercial confidentiality, you must write to your local area office within twenty working days of receipt of this form indicating which information it concerns and why it should not be released, giving your reasons in full.

Customer charter

What can I do if I disagree with this compliance assessment report?

If you are unable to resolve the issue with your site officer, you should firstly discuss the matter with officer's line managers using the informal appeals procedure. If you wish to raise your dispute further through our official Complaints and Commendations procedure, phone our general enquiry number 0300 065 3000 (Mon to Fri 08.00 – 18.00) and ask for the Customer Contact team or send an email to enquiries@naturalresourceswales.gov.uk. If you are still dissatisfied you can make a complaint to the Public Services Ombudsman for Wales. For advice on how to complain to the Ombudsman phone their helpline on 0845 607 0987.

Welsh Language

If you would like this form in Welsh please contact your Regulatory Officer.
