Section 1 - Compliance Assessment Summary

This is based on the requirements of the permit under the Environmental Permitting Regulations. A detailed explanation and any action you may need to take are given in the "Detailed Assessment of Compliance" (section 3). This summary details where we believe any non-compliance with the permit has occurred, the relevant condition and how the non-compliance has been categorised using our Compliance Classification Scheme (CCS). CCS scores can be consolidated or suspended, where appropriate, to reflect the impact of some non-compliances more accurately. For more details of our CCS scheme, contact your local office.

If the Total No Breaches is greater than zero, then please see Section 3 for details of our proposed enforcement response

Section 2 – Compliance Assessment Report Detail

This section contains a report of our findings and will usually include information on:

- the part(s) of the permit that were assessed (e.g. maintenance, training, combustion plant, etc)
- where the type of assessment was 'Data Review' details of the report/results triggering the assessment
- any non-compliances identified
- any non-compliances with directly applicable legislation
- details of any multiple non-compliances
- information on the compliance score accrued inc. details of suspended or consolidated scores.
- details of advice given
- any other areas of concern
- all actions requested
- any examples of good practice.
- a reference to photos taken

This report should be clear, comprehensive, unambiguous and normally completed within 14 days of an assessment.

An OMA audit was carried out on the 9th June for both water and air emission monitoring with the following actions.

Emissions to air - score 95%

This is an improvement from 2011 where a score of 84% was achieved. InBev have been proactive in addressing the actions of the last OMA report hence the higher score. The outcome of this audit has led to the following actions that would be required to be met in order to gain a higher score.

OMA 2 A.

ACTION 1: This is an ongoing problem at the site where the appropriate infrastructure is not in place for the sampling ports. The action is for InBev to annually review this situation if opportunity arises to bring the ports in line with the requirements of M1.

OMA 4 B.

ACTION 2: In order to achieve a score of 5 further evidence is required for the undertaking of QA checks on the monitoring returns. This would include a systematic process and documented procedures for assessing the data to determine whether it is sound and valid.

OMA 4 D.

ACTION 3: OMA 4 D has shown improvement over the last 2 OMA assessments, to gain a higher score documented procedures for internal auditing is required with associated corrective and preventative actions.

OMA 4 E.

ACTION 4: For OMA 4 E an audit of the significance of the non-compliances is required and whether they are considered to be major or minor.

Emissions to water - score 95%

Again, there has been an improvement in the previous score of 93% in 2011. The following actions have been generated as a result of the OMA.

OMA 2 A

ACTION 5: In order to obtain a score of 5 the Operator needs to provide evidence of how all the requirements listed in *Water OMA 2A* have been met.

OMA 2 G

ACTION 6: This OMA measure requires a breakdown response to be in place within 24 hours. This is not practical or achievable at this site but should be reviewed annually if and when an opportunity arises to meet the requirement.

OMA 3 G

ACTION 7: Like OMA 2 G this OMA measures the breakdown response to be in place within 24 hours. This is not practical or achievable at this site but should be reviewed annually if and when an opportunity arises to meet the requirement.

Section 3- Enforcement Response

Only one of the boxes below should be ticked

You must take immediate action to rectify any non-compliance and prevent repetition.

Non-compliance with your permit conditions constitutes an offence and can result in criminal prosecutions and/or suspension or revocation of a permit. Please read the detailed assessment in Section 2 and the steps you need to take in Section 4 below.

Other than the provision of advice and guidance, at present we do not intend to take further enforcement action in respect of the non-compliance identified above. This does not preclude us from taking enforcement action if further relevant information comes to light or advice isn't followed.

In respect of the above non-compliance you have been issued with a warning. At present we do not intend to take further enforcement action. This does not preclude us from taking additional enforcement action if further relevant information comes to light or offences continue.

We will now consider what enforcement action is appropriate and notify you, referencing this form.

Section 4- Action(s)

Where non-compliance has been detected and an enforcement response has been selected above, this section summarises the steps you need to take to return to compliance and also provides timescales for this to be done.

Criteria Ref.	CCS Category	Action Required/Advised	Due Date
See Section 1 above			

Section 5 - Compliance notes for the Operator

To ensure you correct actual or potential non-compliance we may

- advise on corrective actions verbally or in writing
- require you to take specific actions in writing
- issue a notice
- require you to review your procedures or management system
- change some of the conditions of your permit
- decide to undertake a full review of your permit

Any breach of a permit condition is an offence and we may take legal action against you.

● We will normally provide advice and guidance to assist you to come back into compliance either after an offence is committed or where we consider that an offence is likely to be committed. This is without prejudice to any other enforcement response that we consider may be required.

● Enforcement action can include the issue of a formal caution, prosecution, the service of a notice and or suspension or revocation of the permit.

See our Enforcement and Civil Sanctions guidance for further information

This report does not relieve the site operator of the responsibility to

- ensure you comply with the conditions of the permit at all times and prevent pollution of the environment
- ensure you comply with other legislative provisions which may apply.
