BA12 6ES

Our ref: EPR/RP3932MF/V005

Date: 09 March 2017

Dear Mrs Pitts

Returning your permitting application

Application reference: EPR/RP3932MF/V005
Operator: Richard Howat, Alan Howat, John Howat, Ian Howat and Christine Howat
Facility: Langstone Farm Poultry Unit

We have looked at the extra information you sent us via email on 06 March 2017. We are still missing the required odour modelling and a declaration completed by each of the individual permit holders. Unfortunately this means your application is not duly made and we must return it to you.

As previously detailed, an Odour Impact Assessment quantifying the potential impact of odour from the facility on all sensitive receptors was required. You are advised to read Appendix 3 of the Environment Agency's H4 Odour Management document for more detail about modelling.

The declaration in Part F of the application has not been completed by a relevant person to say this is a valid application. As the permit is issued to five individuals they will all need to complete the declaration. This must be completed by all five of the individuals themselves.

You may resubmit your application at a later date. We recommend that you talk to your local area office about your application before you complete it. Please call 03000 65 3000 and ask to speak to your local area office or your site officer.

We will refund your application fee separately. Can you please send bank details for the refund to banking.team@cyfoethnaturiolcymru.gov.uk including the application reference at the top of the letter.

Please be advised that if you change how you operate your facility without us agreeing to the change and issuing you with a variation notice, you may be committing an offence and could be liable to prosecution.
