

Dear Resident,

Re: Odours from Bryn Posteg Landfill

You have previously contacted us about odours from Bryn Posteg Landfill site.

Officers from Natural Resources Wales have been regularly inspecting the site as a result of ongoing issues with permit non-compliance. We issued an enforcement notice to the operator in March and followed that with a two day audit in August. NRW do not consider the terms of the notice to have been met and we are now looking at formal enforcement action to bring the site back into compliance with the permit requirements.

We have successfully influenced Potters Group to take ownership of the site liaison group and the first meeting is taking place this week. Local councillors and elected community representatives have been invited to discuss the issues affecting the local community.

In the interim, please continue to report any issues regarding odour so we can continue to monitor and assess the scale of the problem. Our incident hotline (0800 807060) is manned 24 hours a day and your calls are passed to a local officer to assess the level of response necessary.

If you would like any further feedback in relation to your original call then please contact me on email at north.wales.ppc@naturalresourceswales.gov.uk.

Kind Regards,

Aled Zachary
