Dear Mr Griffiths,

Re: Report ID HP3737UE/0238817- Improvement Condition IC7 Update

Following on from your recent site visit and subsequent emails, I can confirm the following points which were the subject of Actions 1 and 2 as listed in the resultant CAR.

ACTION 1:

I can confirm that we are able to achieve ongoing compliance with the pH limits laid down in our EPR Permit. The new pH monitoring equipment assists us in demonstrating such compliance.

ACTION 2:

The 'Aspects Register' continues to be assessed and updated on a six monthly basis. Our procedures have been updated to ensure that they indicate this consistently.

I trust that this information will be sufficient for us to regard both the actions included in your CAR as closed.

Yours sincerely,

David Watkins
Head of O&M UK/ Plant Manager

Kerry Cope
Commercial Manager
