0	0

How we use the non-compliance score to calculate your annual fee is explained in the 'Important Information' section below.

2. What action is required?

No action required.

3. What will happen next?

Any non-compliance we have identified and recorded on this form is an offence. It can result in criminal prosecution and/or suspension or revocation of your permit.

At this time, we do not intend to take any further action.

This statement does not stop us from taking additional enforcement action if further relevant information comes to light or offences continue.

4. Details of our assessment

On the 30th November 2021 a site inspection was carried at Thorncliffes Building Supplies Limited, The Windmill Site, Rhuddlan Road, Abergele, LL22 9SE by Natural Resources Wales. The site visit was conducted by Phil Harper (Industry & Waste Regulation Officer) and Cathrine Kiely (Senior Industry & Waste Regulation officer). The visit was accompanied by Jim Morgan (site manager).

Weather conditions were overcast but dry.

At the time of the visit the site was without power due to Storm Arwen. After signing into the visitors book the site diary was checked. The site diary had been filled out to the standard required by the permit, including entries regarding the loss of power.

The site was accepting waste at the time of the visit. However, due to the power loss the picking line was not operational. Excess waste on site was being taken to Thorncliffes Building Supplies Ltd, Mold Rd, Ewloe Barn Industrial Estate, Alltami CH7 6LG.

C4 Storage, Handling and Segregation

All on site waste streams were clearly segregated.

F1 Odour

No odours were noted on site or outside of the site boundary.

F2 Noise

Site was operational during the inspection, no excessive noise.

F4 Pests

Since the previous visit to the site on the 10th August 2020, measures have been put in place to manage seagulls on site. No pests were observed at the time of the visit.

F5 Deposits on road.

No deposits or mud were noted on the road outside the site.

Advisory

Any event at the site which prevents the site from operating such as a loss of power should be reported to Natural Resources Wales as soon as is practicably possible.

Kind Regards

Phil Harper

Industry and Waste Regulation Officer NW

Important information

Legal status of this report

Your permit is issued to you under the Environmental Permitting Regulations. You have a responsibility to comply with the conditions of your permit and prevent pollution/harm of the environment. You must also ensure that you comply with any other relevant legislation that may apply to your site's operations.

This report explains the findings of our assessment and any action you are required to take. We categorise non-compliance using our guidance for assessing non-compliance at regulated sites.

When we find potential non-compliance/s we will normally give you advice on how to maintain compliance.

To correct non-compliance, we may:

- require you to take specific actions
- issue a notice
- review the conditions of your permit.

Any advice and guidance we give will be without prejudice to any other enforcement response that we consider may be required.

Assessment results and non-compliance categories (used in section 1):

Assessment result	Description
Assessed (A)	Assessed or assessed in part, no evidence of non-compliance found
Action only (X)	Action only relating to the activity assessment
Ongoing (O)	Ongoing non-compliance, not scored

Non-compliance category	Description	Score
C1 Major	Potential to have a major, serious, persistent and/or extensive impact or effect on the environment, people and/or property	60
C2 Significant	Potential to have a significant impact or effect on the environment, people and/or property	31
C3 Minor	Potential to have a minor or minimal impact or effect on the environment, people and/or property	4
C4 No environmental impact	Non-compliance at a regulated site that cannot foreseeably have any impact on the environment, people and/or property	0.1

How we use assessment scores

The number and severity of non-compliances recorded in a year will affect your annual subsistence fee the following year. A non-compliance factor is added to your site's Operator

Performance Risk Appraisal (OPRA) score when we calculate your fee to reflect the additional resource we use to assess permit compliance.

What are suspended scores?

In line with our guidance, we may suspend scores for up to six months to allow time for remedial action to be taken. Suspended scores will be re-instated if the action is not completed.
