Introductory note

This introductory note does not form a part of the permit

The following notice is issued under regulation 17 of The Pollution Prevention and Control (England and Wales) Regulations 2000 (S.I.2000 No. 1973 (as amended) (the Regulations) to vary the conditions of a permit issued under the Regulations to operate an installation. The notice comprises schedule 1 containing conditions to be deleted, schedule 2 conditions to be amended and schedule 3 conditions to be added.

This permit variation is required, as infrastructure changes at the installation will involve a change of the installation boundary. This variation to the permit BP3007IM permits the extension of installation boundary to include the addition of two 500 Cubic Metre water tanks and associated bund. The tanks are used for balancing water flow to the Dissolved Air Flotation treatment system and thereby improve the operation by reducing the quantity of COD and suspended solids discharged to sewer
