A detailed explanation is captured in "Compliance Assessment Report Detail" (Section 2) and any actions you may need to take are given in the "Action(s)" (section 4). This summary details where we believe any non-compliance with the permit has occurred, the relevant condition and how the non-compliance has been categorised using our Compliance Classification Scheme (CCS). CCS Scores can be consolidated or suspended where appropriate, to reflect the impact of some non-compliances more accurately. For more details of our CCS scheme, contact your local office.

Both reports are accepted.

Water use is less than in 2015 and is within the low impact criteria.

Waste production and energy consumption are both well within the low impact limits.

Form Performance 1, Performance Indicators 01/01/2016 to 31/12/2016
