Form Number: Air1

Form Date: 28/01/2015

Reporting of emissions to air for the period from 20/08/2013 to 17/10/2014

Emission Point	Substance / Parameter	Emission Limit Value	Reference Period	Result [1]	Test Method [2]	Sample Date and Times [3]	Uncertainty [4]
A1	Particulate Matter	No Limit	20/08/13 - 17/10/14	0.4 mg/m3	BS EN 13284-1	17/10/2014 - 09:40 - 10:40	0.75
A1	Oil Mist	No Limit	20/08/13 - 17/10/14	0.0073 mg/m3	BS EN 13284-1 with analysis based on MIDHS 84	17/10/2014 - 11:50 - 12:50	0.0015

[1] The result given is the maximum value (or the minimum value in the case of a limit that is expressed as a minimum) obtained during the reporting period, expressed in the same terms as the emission limit value. Where the emission limit value is expressed as a range, the result is given as the 'minimum - maximum' measured values.

[2] Where an internationally recognised standard test method is used the reference number is given. Where another method that has been formally agreed with Natural Resources Wales is used, then the appropriate identifier is given. In other cases the principal technique is stated, for example gas chromatography.

[3] For non-continuous measurements the date and time of the sample that produced the result is given. For continuous measurements the percentage of the process operating time covered by the result is given.

[4] The uncertainty associated with the quoted result at the 95% confidence interval, unless otherwise stated.
