Dear Ms. Parr,

PERMIT ZP3535MW - QUARTERLY RETURNS OCT-DEC 2014 & ANNUAL 2014 RETURNS

Please find attached all annual and final quarter return forms for 2014.

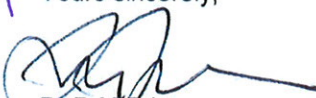

PC
4.2.1
The installation authorized under this permit is operated as a demonstration facility at present. As such no wastes have been discharged nor has the system been operated during 2014. Therefore no assessment can be made at present against the relevant assumptions, parameters and results submitted in the application.

Similarly, as the installation has not operated commercially during 2014 we currently have no data to assess against operational improvement targets or emission limits values to air and water.

All wastes previously charged at the installation during the commissioned stages were stored within the constructed bunds. No leaks or spills have been reported and the integrity of the impermeable pavement and bunds remain fit for purpose.

I trust that this information is satisfactory. Should you require any further information please do not hesitate to contact me.

Yours sincerely,

Dr R M Prigmore
Senior Executive Officer
