Variation application number  
EPR/ZP3535SQ/V004

Permit number  
EPR/ZP3535SQ

# Silent Valley Generation Plant

## Permit number EPR/ZP3535SQ

### Introductory note

**This introductory note does not form a part of the notice.**

The following notice gives notice of the variation and consolidation of an environmental permit.

This variation allows the operator to replace the Caterpillar 3520 engine with two smaller Jenbacher engines. The Jenbacher engines will be a J320 with an engine capacity of 1,006kWe and a J316 with an engine capacity of 560 kWe. This is part of a planned scheme of works for gas management as landfill gas reduces in the landfill and will also provide for better flexibility.

The existing engine discharges via a single dedicated exhaust stack. The intention is to install one replacement engine in the location of the existing one thereby retaining the initial emission point; the second engine will be placed on a spare base to the south of the existing engine. The second engine creates a new emission point.

The schedules specify the changes made to the permit.

The status log of a permit sets out the permitting history, including any changes to the permit reference number.

<b>Status log of the permit</b>		
<b>Description</b>	<b>Date</b>	<b>Comments</b>
Application ZP3535SQ received	19/11/04	Response received 26/11/04
