

Notice of variation and consolidation with introductory note

The Environmental Permitting (England & Wales) Regulations 2016

IQE (Europe) Limited

IQE (Europe) Limited
Cypress Drive
St Mellons
Cardiff
CF3 0EY

Variation application number
EPR/KP3235SS

Permit number
EPR/KP3235SS/V003

St Mellons Semiconductor Plant

Permit number EPR/KP3235SS

Introductory note

This introductory note does not form a part of the notice.

The following notice gives notice of the variation and consolidation of an environmental permit.

This variation adds a new process and emissions from the installation. Ammonia gas is used in the new G5a machine as part of the manufacturing process and Chlorine gas is used as part of the machine cleaning phase. Emissions from this machine are routed through authorised emission point A1 where the Ammonia emissions are abated by a thermal oxidiser.

This variation changes the liquid waste disposal method on-site. Process wastes, including scrubber liquors are discharged under consent from Dwr Cymru Welsh Water to foul sewer, instead of being put into IBC's and removed from site.

The schedules specify the changes made to the permit.

The status log of a permit sets out the permitting history, including any changes to the permit reference number.

Description	Date	Comments
Application EPR/KP3235SS	Duly Made 01/04/05	
Permit determined	13/07/05	
Variation application EPR/KP3235SS/V002 duly made (PAS WP3436FG)	21/10/2011	
Variation issued EPR/KP3235SS/V002	09/12/2011	
Application EPR/KP3235SS/V003	Duly Made 24/02/17	
Application determined	25/07/2017	

End of introductory note
