

C2-3d – Summary of Environmental Management System

IQE has operated an environmental management system (EMS) independently certified by British Standards Institution (BSI) to ISO14001:2004 since 2007.

IQEs EMS has been successfully re-certified on three occasions by BSI with zero major non - conformities identified in the environmental management system.

A revised edition of the standard (ISO14001:2015) was issued in September 2015 and businesses already registered to the previous standard have until September 2018 to transition to the new standard.

IQE successfully transitioned to the revised standard in July 2016 (certificate number EMS 517463). This can be verified using the link provided: <http://www.bsigroup.com/en-GB/our-services/certification/certificate-and-client-directory/>
