This summary details where we believe any non-compliance with the permit has occurred, the relevant condition and how the non-compliance has been categorised using our Compliance Classification Scheme (CCS). G D Environmental (GD) invited Natural Resources Wales (NRW) to a meeting on 20th May 2016 to introduce the new Compliance Team. GD had also requested that NRW explain the requirements of the permits that are in place for their sites.

Present at the meeting

Ian Lynass, CEO, GD;

Oliver Hazell, General Manager, GD;

Julie Taylor, Operations Manager - Wet Waste;

Lee Anson, Site Manager - Llanelli;

Fiona Lynass, Compliance Manager;

Christina Lloyd, Compliance Manager;

Tony Bruten, (TB) Regulatory Officer, NRW;

Rebecca Green, (RVG), Compliance Officer, NRW.

Introductions were made and job functions of all those present explained.

RVG reviewed the EPR permit held for the East Bank Road hazardous waste treatment site in some detail. Permit conditions and how NRW would expect an operator to comply with them were discussed. The circumstances where a Schedule 5 Notification would be appropriate were explained and NRW's enforcement powers and the governing legislation were also clarified. The importance of communication between operator and NRW was emphasised, we prefer to help and advise so that enforcement action can be avoided unless absolutely necessary.

TB also reviewed all the other permits held by GD for their waste operations. The forthcoming variation and consolidation for the Pontypool site was also briefly discussed.

It was a very useful and productive meeting and we would like to thank GD for giving NRW this opportunity to meet the new compliance team and to explain our regulatory functions.

END.
