Introductory note

This introductory note does not form a part of the permit

The following notice, which is issued pursuant to regulation 20 and Part 1 of Schedule 5 of the Environmental Permitting (England and Wales) Regulations S.I.2007 No. 3538 (the Regulations), gives notice of the variation of an environmental permit to operate a regulated facility.

The reason for the variation is that the response to question B2.2 of permit DP3733BK restricted the specification of the permanent cap of each cell to engineered clay. Docksway Area 2 is designed for five cells, Cell 1-Cell 5. This variation extends the capping specification, to allow the option of using a low permeability plastic membrane.

Schedule 1 of this notice lists any deleted conditions, Schedule 2 lists any amended conditions and Schedule 3 lists any conditions that have been added.
