# Statutory Notice

**Hazardous Waste (Wales) Regulations 2005  
Regulation 55**

## NOTICE REQUIRING INFORMATION

To: **SIMS GROUP UK LIMITED**  
SIMS GROUP UK LIMITED  
LONG MARSTON  
STRATFORD-UPON-AVON  
WARWICKSHIRE  
CV37 8AQ  
**Company No. 03242331**

Under Regulation 55 of the above Regulations, **Natural Resources Wales** requires you to furnish the information as specified in Annex 1 by 27<sup>th</sup> November 2015.

This is information that **Natural Resources Wales** reasonably considers it needs to perform its function in relation to the Hazardous Waste (Wales) Regulations 2005.

The information must be sent in writing to John Davies at:

Natural Resources Wales  
Rivers House  
St. Mellons Business Park  
Fortran Road  
St Mellons  
Cardiff  
CF3 0EY

Or via email to [weee@naturalresourceswales.gov.uk](mailto:weee@naturalresourceswales.gov.uk)

Date 13/11/2015

Signed A.S. Lansdown  
**Ashley Lansdown**  
**Industry and Waste Team Leader**

Natural Resources Wales, Rivers House, St Mellons Business Park, Fortran Road, St Mellons, Cardiff, CF3 0EY

**Please see over for notes.**

## **Hazardous Waste (Wales) Regulations 2005**

### **Regulation 55**

#### **Notes:**

##### **General**

1. You may wish to seek independent legal advice.
2. Failure to comply with this Notice, may result in legal action being taken against you.

##### **Appeal provisions**

There is no appeal mechanism in the regulations against the service of this notice.

##### **Penalties**

Failure to supply the information requested is an offence under regulation 65(e) and 69 of the Hazardous Waste (Wales) Regulations 2005 and may result in legal action being taken against you.

It is an offence under regulation 68 to knowingly supply false or misleading information. The maximum penalty in the Magistrates' Court is a fine not exceeding £5,000 or in the Crown Court to a fine or imprisonment for a term not exceeding two years, or both.

##### **Legislation note**

In this document "Natural Resources Wales" means the Natural Resources Body for Wales established by Article 3 of the Natural Resources Body for Wales (Establishment) Order 2012. On 01 April 2013 the Natural Resources Body for Wales (Functions) Order 2013 transferred the relevant functions of the Countryside Council for Wales, and functions of the Environment Agency and the Forestry Commission in Wales to the Natural Resources Body for Wales.

**Hazardous Waste (Wales) Regulations 2005**  
**Regulation 55**

**Annex 1**

Produce to **Natural Resources Wales** the following information that we reasonably require for the purposes of performing our functions in connection with the above Regulations and for the purposes of monitoring the production, movement, storage, treatment, recovery and disposal of hazardous waste namely:

The receipt of waste refrigeration units (End of Life Fridges – ELFS) for treatment.

## Hazardous Waste (Wales) Regulations 2005

### Regulation 55

#### Annex 2

##### Annex 2(i) - Disposal operations

| Code | Description                                                                                                                                                                                                                                        |
|------|----------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| D01  | Deposit into or on to land (e.g. landfill, etc.)                                                                                                                                                                                                   |
| D02  | Land treatment (e.g. biodegradation of liquid or sludgy discards in soils, etc.)                                                                                                                                                                   |
| D03  | Deep injection (e.g. injection of pumpable discards into wells, salt domes or naturally occurring repositories, etc.)                                                                                                                              |
| D04  | Surface impoundment (e.g. placement of liquid or sludgy discards into pits, ponds or lagoons, etc.)                                                                                                                                                |
| D05  | Specially engineered landfill (e.g. placement into lined discrete cells which are capped and isolated from one another and the environment, etc.)                                                                                                  |
| D06  | Release into a water body except seas/oceans                                                                                                                                                                                                       |
| D07  | Release into seas/oceans including sea-bed insertion                                                                                                                                                                                               |
| D08  | Biological treatment not specified elsewhere in this Annex which results in final compounds or mixtures which are discarded by means of any of the operations numbered D1 to D7 and D9 to D12                                                      |
| D09  | Physico-chemical treatment not specified elsewhere in this Annex which results in final compounds or mixtures which are discarded by means of any of the operations numbered D1 to D8 and D10 to D12 (e.g. evaporation, drying, calcination, etc.) |
| D10  | Incineration on land                                                                                                                                                                                                                               |
| D11  | Incineration at sea                                                                                                                                                                                                                                |
| D12  | Permanent storage (e.g. emplacement of containers in a mine, etc.)                                                                                                                                                                                 |
| D13  | Blending or mixing prior to submission to any of the operations numbered D1 to D12                                                                                                                                                                 |
| D14  | Repackaging prior to submission to any of the operations numbered D1 to D13                                                                                                                                                                        |
| D15  | Storage pending any of the operations numbered D1 to D14 (excluding temporary storage, pending collection, on the site where it is produced)                                                                                                       |

##### Annex 2(ii) - Recovery operations

| Code | Description                                                                                                                                            |
|------|--------------------------------------------------------------------------------------------------------------------------------------------------------|
| R01  | Use principally as a fuel or other means to generate energy                                                                                            |
| R02  | Solvent reclamation/regeneration                                                                                                                       |
| R03  | Recycling/reclamation of organic substances which are not used as solvents (including composting and other biological transformation processes)        |
| R04  | Recycling/reclamation of metals and metal compounds                                                                                                    |
| R05  | Recycling/reclamation of other inorganic materials                                                                                                     |
| R06  | Regeneration of acids or bases                                                                                                                         |
| R07  | Recovery of components used for pollution abatement                                                                                                    |
| R08  | Recovery of components from catalysts                                                                                                                  |
| R09  | Oil re-refining or other reuses of oil                                                                                                                 |
| R10  | Land treatment resulting in benefit to agriculture or ecological improvement                                                                           |
| R11  | Use of wastes obtained from any of the operations numbered R1 to R10                                                                                   |
| R12  | Exchange of wastes for submission to any of the operations numbered R1 to R11                                                                          |
| R13  | Storage of wastes pending any of the operations numbered R1 to R12 (excluding temporary storage, pending collection, on the site where it is produced) |
