Introductory note

This introductory note does not form a part of the notice

The following notice gives notice of the variation of an environmental permit.

Permit EPR/ZP3630EB (previously EPR/CP3538MP) which authorised another operator to undertake activities within the GD Environmental Services Limited site boundary was surrendered on 27 June 2017. GD Environmental Services Limited are now adopting the storage tank that was operated under the other permit. The use of the additional tank, to store septic tank sludge, does not require any changes to the listed activities being carried out, storage limits, authorised waste types or emissions to air. The site plan has been updated to reflect the inclusion of the area of land previously operated under the other permit into GD Environmental Services Limited's permit. The registered office address has also been updated.

The schedules specify the changes made to the original permit.

The status log of a permit sets out the permitting history, including any changes to the permit reference number.
