Attn: Guy Baskerville

Dear Guy,

Re: EAWML30058 and DP3733BK – Docksway Disposal Site. Latest Area 1 and 2 Surface Water Monitoring Results, Round 213.

We write to provide details of the results of surface water monitoring undertaken at Docksway Disposal Site in November 2021 (Round 213).

With this letter report we enclose summary tables giving field observations and selected field test results for each of the surface water positions. The analytical certificates for the laboratory testing carried out during this monitoring round are included with this report.

Surface water sampling was carried out at four locations during Round 213, see Table 1 below.

Table 1 - Details of Locations Sampled during Round 213

Position Monitored	Location
SW1A	River Ebbw Upstream
SW23	Discharge to Maes Glas Pill from Docks Drain Outfall (Disused Culvert)
SW24	Oxbow Lake Position 1
SW25	Area 1 Surface Water
C3_Asb	Cell 3 settling lagoon

Note: SW02 and SW7 were not monitored during this round due to unsafe access. SW26 was recorded to be dry.

Surface Water Quality Assessment

Table 2 below shows selected testing results for Round 213. There are no compliance limits set for surface water and therefore there is no commentary regarding the results.

Table 2 - Testing Results Summary for Round 213

Monitoring Location	Field Temperature (°C)	Lab pH	Ammoniacal Nitrogen (mg/l)	Field Dissolved Oxygen (%)	BOD (mg/l)	Suspended Solids (mg/l)	Chemical Oxygen Demand (mg/l)
SW1A	10.8	8.26	<0.2	98.6	<1.00	n/a	<7.0
SW23	12.9	7.50	14.4	65.0	2.48	n/a	28.4
SW24	10.8	7.96	<0.2	74.7	<1.00	n/a	30.0
SW25	11.2	8.21	1.12	92.8	3.38	9.0	89.0
C3_Asb	10.9	8.23	1.29	85.2	2.57	8.4	88.5

The field operative did not record the presence of a sheen during sampling at C3_Asb and the laboratory did not detect asbestos fibres in the sample submitted. The surface water quality within C3_Asb did not breach the emission limits in the permit during Round 213.

The surface water quality at SW25 has met the specific requirements of the discharge consent limits for the parameters tested.

Concluding Remarks

Newport City Council (NCC) will continue to monitor the surface water quality on and around Docksway Disposal Site in accordance with the aftercare monitoring plan for Area 1, the Environmental Permit, and in accordance with the relevant discharge consent limits. Stantec will continue to provide commentary on water quality with reference to point source emission limits to water (Table S3.2 of the Permit), and discharge consent limits within subsequent reports (as appropriate).

If you have any questions regarding the investigations carried out or the data herein, then please do not hesitate to contact us.

Yours sincerely

Kate Riley
Senior Associate
